Message from the

Chairman & Managing Director

While our brands are preferred across every occasion, we always advocate for responsible consumption and strive to consistently improve the impact on the planet.

Dear Stakeholders,

The fundamentals of a business are considered strong when you see a consistent market for your products amidst industry adversities. We all acknowledge that these are challenging times for us as a Company. However, these challenges provide an opportunity to move forward in a new way.

The country is evolving with positive long-term macro-economic fundamentals, so are the consumer preferences. The fact remains that we have a highly controlled market and stringent regulatory structure. However, higher purchasing power, affluence, rapid urbanization, increasing social acceptability and changes in drinking behaviour will create opportunities for generating additional demand for IMFL products. At TI, we have operated efficiently over the years, by consolidating our fundamental strengths. We have developed our brands and a customer mindspace, which is a very important aspect for our business sustainability. The widespread distribution footprint across the country further boosts the business efficiencies across the entire business value chain.

The resultant impact was visible in FY17. We sold 5.1 million cases as against 4.03 million cases in the previous year. The volume growth was healthy during the year owing to the strong demand for our brands. Sales have grown every quarter, in the markets where we have strong presence. This is the result of our consistent marketing efforts. Today, all our brands are profitable owing to our higher focus on selling premium brands. We look forward to stabilizing our position and ensure optimum level of scale in our operations, within the available resources and capacities.

As we enter into the fiscal 2017-18, we have set our agenda to reduce working capital constraints and improve cash flows through efficiency improvement and cost rationalization measures. Nearly 47% of our secured debt has been taken over by Edelweiss Asset Reconstruction Company Limited, with whom a long-term debt restructuring schedule to service the principal and interest is being discussed. We will continue to explore further possibilities of re-structuring the remaining debt and bringing it down to sustainable levels.

Outlook

Going ahead, we foresee a steady growth of India's IMFL industry. This is based on the basic strengths of strong consumerism, a growing middle class, young demographics, the growing appetite for luxury spirits and strong economic fundamentals. We believe in the future of our business and to protect our tomorrow, we have taken some tough decisions now, to set the Company on the growth path and deliver sustained performance. We will continue to focus on increasing production volumes of our premium and semi-premium brands, with the support of our skilled people, strong brand recall and our vast distribution point of sale network to deliver on the opportunity. In time, TI is expected to reach a position of strength and once again occupy a prominent space in the premium segments of the IMFL industry.

Acknowledgement

I would like to thank every single employee for his/her dedication and hard work during the year. They have held their heads high, focused on priorities and maintained their strong belief in the future of this Company. In turn, we are committed to continue to build a cohesive environment, and look forward to working as a team to make sure that we deliver a turnaround story that we can all be proud of. I would like to thank all our lenders, who have continued to believe in our story and brands, and who are supporting us in taking a journey towards better financial health in time. Lastly, I would like to thank all our stakeholders for the support and faith that they have posed in us in these testing times. I am confident of the corrective steps we have imbibed and look forward to a stronger future.

Management Discussion and Analysis

ECONOMIC REVIEW

The first half of the year witnessed weak trade and investment activity, subdued productivity, higher commodity prices, combined with increased political and policy uncertainty with events like Brexit and US Presidential Elections. However, the second half of fiscal, witnessed improvement across the developed nations. The US economy rebounded owing to increased consumer demand aided by a fiscal stimulus. This was further reflected in reduction in the rate of unemployment. Euro area has grown due to strong domestic demand and increased spending. Japan also showed signs of recovery during the first quarter of 2017 due to strong exports.

However, the positive turnaround of the advanced economies got overshadowed by the sluggish growth in the key emerging markets and developing economies (EMDEs). Brazil remained mired in a deep recession. Weak activity was reported in fuel and non-fuel commodities exports in parts of the Middle East and Turkey due to tension created by geo-political factors. It was only India and China that reported strong growth.

The Indian economy emerged as the fastest growing economy amongst the G-20 Nations, with 7.1% growth in FY17. The growth was primarily driven by lower fiscal deficit, moderate inflation, and higher consumption. The growth momentum is expected to continue in the coming fiscal largely driven by well-regulated monetary and fiscal policies and Government's reforms and initiatives towards encouraging domestic productivity and ease of doing business.

The global economic growth is projected by the World Bank to increase to 2.9% in FY18. Business activities are projected to pick up in both advanced economies and EMDEs, supported by a recovery in commodity prices, manufacturing, trade and investment with reduced inflationary pressure.

GLOBAL SPIRITS MARKET

The global spirit market is segmented across Brandy, Gin, Vodka, Rum, flavoured spirits, Tequila, natural spirits, and Whisky and is largely dominated by premium and super premium brands. By geography, it has been segmented into North America, Europe, Asia-Pacific and Rest of the World (RoW). North America and Europe are considered as mature markets and due to this reason, the concentration

of the manufacturers is shifting away from these regions. Asia Pacific is the fastest growing region for alcoholic beverages market. Due to this, the manufacturers are focusing on penetrating developing countries such as India, China among others.

However, there are a few restraints for the market as well. The major players are constantly competing among themselves to gain the maximum market share. This poses as a threat for the entry and sustenance for any new player trying to operate in the market. Other restraints include the increase in the price of raw materials, availability of substitutes (non-alcoholic beverages) and rules and regulations posed by the Government.

In spite of these restraints, the global spirits volume during the year was bolstered by an uptick in the Gin, Tequila and Whisky categories. According to IWSR Forecast 2016-2021 Global Review Report, the global alcohol market is projected to grow by over 1 billion cases with an annual consumption to 29.3 billion cases by the year 2021.

There are various factors driving this growth such as growing global population, increasing demand for premium products, innovative marketing campaigns by vendors and rising disposable income of middle-class. Consumption of alcoholic beverages has also become a status symbol and hence people are ready to pay for quality premium brands.

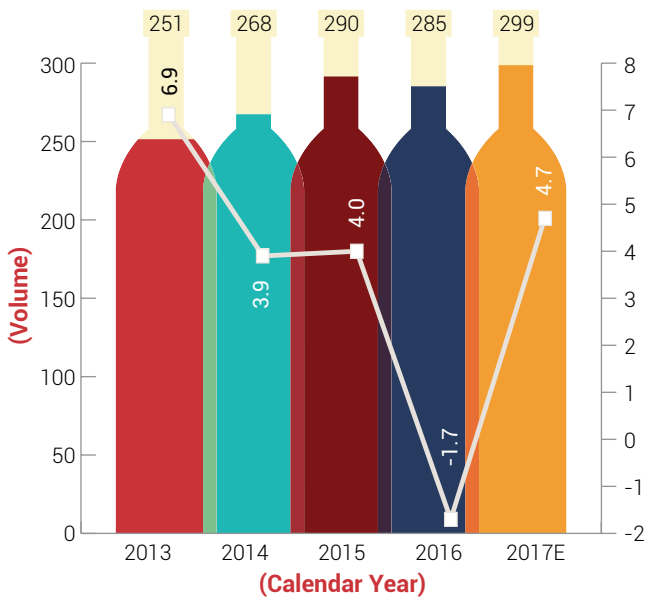

Overall, the increasing consumption of alcoholic beverages in countries such as India, Brazil, China, and Russia is anticipated to fuel the global market and the industry is expected to grow even further in the future.

IMFL MARKET TRENDS IN INDIA

India is the 3rd largest liquor market globally. The Indian alcoholic beverage market is broadly segmented as Spirits (IMFL and Country Liquor), Beer and Wine. IMFL market has been further bifurcated into Whisky, Rum, Brandy, Vodka and Gin. IMFL industry offers immense growth opportunities, triggered by increasing population and disposable income along with increasing social acceptance.

The IMFL market size in India is expected to grow to 299 million cases (mcs) in 2017 and is expected to reach 337 mcs by 2020. In 2017, the industry volume is expected to increase by 4.7%.

GROWTH DRIVERS

Indian IMFL market is one of the fastest growing industries globally with sales value and volume expected to witness CAGR value of 8.4% and 4.7% during the period 2017-21.

The growth will be driven by:

Rising social acceptability: There is a fundamental positive change in the pattern of drinking among people in India. As conventional rules for alcohol use weakened, drinking changed from ritualistic and occasional to become a part of routine everyday social meetings and entertainment.

Rising affluence: High per capita income of the consumers is pushing the industry to newer heights. The top two categories i.e. elite and affluent account for 27% of the total consumption, which is anticipated to reach 40% by 2025. Today, Indian middle class is moving to an upper income group with changing lifestyles, luxury preferences and ability to pay more for premium products.

Rapid urbanization: Urbanized metros and tier-2 cities are fuelling the growth of the IMFL industry. By 2025, approximately 40% of India's population is expected to migrate to cities and will account for over 60% of the total consumption expenditure.

Rising young population: Changing demographics is further expected to boost the Indian alcohol market with over 65% population below 35 years. Moreover, estimated median age of the country's population was pegged at 27 years in the year 2014. (Source - Future Markets Insight).

Change in drinking behaviour: Today, more women and youth prefer alcohol, breaking the traditional way of drinking behaviour. This is leading to a rapid rise in alcohol consumption across the country.

Changing Family Structures: Over the past two decades, India is witnessing a gradual shift from joint to nuclear family. The decision makers in nuclear families are young, and their consumption decisions are inclined more towards better lifestyle.

Increasing alcohol availability: Increased and better transportation facilities contribute to wider alcohol availability in India. Moreover, variety of alcohol brands and types are easily available in Government-licensed outlets, Government shops, private licensed retail chains, restaurants and bars.

CHALLENGES

The Indian IMFL industry is highly regulated by the Government with heavy taxes and duties levied on liquor manufacturers. Restrictive consumption in selected States, combined with increased material prices like ENA, glass, molasses etc., water availability and imposition of ban on advertising pose huge challenges for the industry. The Honourable Supreme Court of India has banned all liquor outlets within distance of 500 meters on both sides of the notified highways with effect from April 01, 2017. As a result, many liquor outlets (including country liquor) may be forced to close down affecting the business of the industry.

OPPORTUNITIES

With increasing participation of global players, the industry is projected to become more operationally disciplined, efficient and aligned to best global practices. In addition, Companies are focusing more on premium products because of shifting consumer preference towards premium varieties of IMFL, driving profitability further. With favourable demographics, rising disposable income levels and greater acceptance of alcoholic beverages in social circles, the outlook for the Indian alcoholic beverages continues to remain positive.

Operations Review

During FY17, the sales volume increased by 27.30% to 5.13 million cases as compared to 4.03 million cases in FY16. Region-wise, TI has registered sales volume of 4.06 million cases in southern region, 0.19 million cases in eastern region, 0.08 million cases in western region and 0.80 million cases in exports & institutions segment. Segment-wise, Brandy contributed 82%, followed by Rum, Whisky, Vodka & Gin segments, which have contributed 11%, 5%, and 2%, respectively to the overall sales volume of the Company. TI registered 37.45% increase in sales volume of its premium brand Mansion House Brandy, reporting 3.56 million cases during this year against 2.59 million cases in the previous year. The Company faced challenges in the supply of TI's brands in key profitable States owing to shortage of working capital.

Region-wise Sales Volume in FY2017

Financial Performance

Revenue from operations (net of excise duty) of TI during FY17, on consolidated basis, stood at ₹ 4,866.76 million (inclusive of MVAT and CST refund of ₹ Nil) as compared to ₹ 4,577.83 million (inclusive of MVAT and CST refund of ₹ 258.92 million) during the FY16. Despite the increase in the sales volume, the Company has incurred a net loss of ₹ 2,768.68 million during the FY17 as compared to net loss of ₹ 2,817.44 million during the FY16.

The losses incurred in the recent years are mainly due to high debt resulting in high interest costs and loss in sales volume emanating from lack of adequate working capital to fund the cost of goods. The Company has already taken various measures to increase the sales volume and to reduce costs, wherever possible, and is actively exploring the possibilities of restructuring the existing debts, selling of non-performing assets and considering the feasibility of raising additional capital from affiliates or other investors.

Nearly 47% of the secured debt of the Company has been taken over by Edelweiss Asset Reconstruction Company Limited with whom a long-term debt restructuring schedule to service the principal and interest is being discussed. The Company is confident that persistent efforts and strategies will gradually result in improved productivity and efficiency in the coming years.

Marketing and Branding

TI has further strengthened its brand portfolio by initiating new marketing activities and deriving maximum value from the portfolio of its legacy brands that includes Mansion House Brandy and Courier Napoleon Brandy – Red and Green. Some of these initiatives include:

- ✦ Revamping the packaging of the Mansion House Brandy to provide a better look and vibrancy to the brand;
- ✦ Conducting brand promotion initiatives and introducing celebration pack of Courier Napoleon Brandy - Green in Puducherry and Karnataka, resulting in better demand and sale of the brand in the market; and

- ✦ Foraying into digital promotions to increase the awareness of TI's brands amongst the younger generation through non e-commerce digital/social media platforms with the generic name "Mansion House" of its marquee brand "Mansion House French Brandy".

Distribution Networks

TI has a strong market presence in the Southern region covering various market segments. The Company sells through State Corporations across Telangana, Andhra Pradesh, Karnataka, Kerala and Odisha. It also operates through distributor channel located in Maharashtra, Goa, Silvassa, Assam and West Bengal. TI also has a good presence in the CSD marketplace. Going ahead, the Company has plans to expand its presence into the East, which is brimming with growth potential.

Material Developments

The Company has granted license for use of its certain brands in the territory of Karnataka to Vahni Distilleries Private Limited, wholly owned subsidiary for a period of 15 years commencing from April 01, 2017.

The Company has also granted license for use of its certain brands in the territories of Andhra Pradesh, Telangana, Puducherry, Mahe & Karikal to PunjabExpo Breweries Private Limited, wholly owned subsidiary for a period of 15 years commencing from April 10, 2017.

The arrangement entered into with Pernod Ricard India Private Ltd. on September 27, 2012 for manufacturing their products at the Shirampur Plant of the Company has been discontinued with effect from April 01, 2017.

RISK, CONCERNS, OPPORTUNITIES AND THREATS

Being an established and recognized player in the marketplace, TI has a strong and loyal following by millions of consumers who stand by its portfolio of alcoholic beverages. The vast numbers of young Indians coming of legal drinking age over the next few years is a tremendous advantage and a huge potential consumer base. TI expects that the young India will continue to be a sustained growth driver. However, despite these positives, TI is not impervious to certain risks or concerns that might challenge this industry from time to time.

To begin with, the increasing levels of taxation coupled with stringent regulations have pushed taxes and duties to approximately three fifths of the retail prices of most of its products. Further, non-inclusion of liquor in the Goods

and Services Tax (GST) regime will also result in price escalation. A large percentage of the Company's turnover is derived from Southern India, where any unfavourable regulatory policy can impact business. To avoid the risk of losing market share to its competitors, the Company is taking various initiatives to ensure constant supply of its products to cater to the demand in different markets.

HUMAN RESOURCES

Today, the HR function has become the most critical catalyst for continuous transformation during a phase of rapid growth and transition; shaping not only processes, people and mindsets, but creating a culture that EPITOMIZES TI and unleashes innovation at every level within the organization.

At the very heart of TI and its steady growth story is its biggest asset - its People. TI is proud of their passion and commitment to the Company and the alignment of their aspirations and dreams to its shared vision. * The Company has tie-up arrangements in some States and in respect of such arrangements, the net turnover of ₹ 2,490.47 million during the financial year ended March 31, 2017 (P.Y. ₹1,658.49 million) has not been treated as sales. However, the surplus generated out of these arrangements (F.Y. 2016-17 : ₹ 844.76 million, F.Y. 2015-16 : ₹ 526.36 million) is included in the revenue from operations.

The Company has been recognizing MVAT and CST subsidy (pursuant to the grant of Mega Project Status under Package Scheme of Incentives, 2007 by the Government of Maharashtra vide its eligibility certificate dated April 11, 2012) on disbursement instead of accrual basis from the quarter ended September 2015 onwards. Accordingly, the revenue from operations for the financial year ended March 31, 2016 is inclusive of MVAT and CST subsidy of ₹ 258.92 million.

The total sales volume achieved by the Company had increased by 27.30% to 5.13 million cases during the financial year ended March 31, 2017 as compared to 4.03 million cases during the financial year ended March 31, 2016. Despite the increase in the sales volume, the Company has incurred a net loss of ₹ 2,645.36 million during the financial year ended March 31, 2017 as compared to net loss of ₹ 2,660.35 million during the financial year ended March 31, 2016.

The losses incurred in the recent years are mainly due to high debt resulting in high interest costs and loss in sales volume emanating from lack of adequate working capital to fund the cost of goods. The Company has already taken various measures to increase the sales volume and reduction in costs, wherever possible. The Company is actively exploring the possibilities of restructuring the existing debts, selling of non-performing assets and considering the

feasibility of raising additional capital from affiliates or other investors. While the macro economic situation continues to present challenges, the Company, with the support of its strong, resilient business model and the effective implementation of the above plans, is persistent with its efforts to generate long term growth.

2. OPERATIONAL REVIEW

Operations

The Company is among India's leading alco-bev business companies with a wide range of brands across the IMFL spectrum comprising Whisky, Brandy, Rum, Gin and Vodka, with a predominant presence in South India and CSD stores. It has established its unique identity in the IMFL industry with its core competencies across manufacturing facilities, wide distribution network and efficient marketing strategies.

During the financial year 2016-17, the Company faced liquidity constraints coupled with an inability to achieve breakeven sales volume due to constraints in the supply of Company's brands in key profitable States owing to shortage of working capital, bottling capacity constraints in the State of Tamil Nadu and decline in profitability due to moderation in revenues, higher finance costs and increased raw material costs. The Company is making efforts to address these issues and improve its liquidity position to meet the requirement of funds and effect payments of statutory dues, borrowings and business liabilities falling due.

Manufacturing Facilities

The Company has ultra-modern set up with robust manufacturing facilities, comprising of 1 owned facility, 3 operating liquor subsidiaries, 4 leased and 9 tie-up units strategically located across India. It has 100 KLPD molasses based and 100 KLPD grain based distillation plants and IMFL Bottling Plants at Shrirampur (Maharashtra).

During the financial year 2016-17, the grain based plant of the Company was not operational. The Company is awaiting permission from the Government for allowing use of the grain based plant for distillation of molasses along with grain (Dual Feed) to take advantage of the market price of the two feed stocks viz. grain and molasses.

Sales and Distribution

The Company is an established player in the Brandy space in India and is committed to fortify its presence in the segment with a strong portfolio of brands including Mansion House Brandy and Courier Napoleon Brandy.

During the financial year 2016-17, the sales volume increased by 27.30% to 5.13 million cases as compared to 4.03 million cases in the financial year 2015-16. Region-wise, the Company has registered sales volume of 4.06 million cases in southern region, 0.19 million cases in eastern region, 0.08 million cases in western region and 0.80 million cases in exports & institutions segment. Segment-wise, Brandy contributed 82%, followed by Rum, Whisky, Vodka & Gin segments, which have contributed 11%, 5%, and 2%, respectively to the overall sales volume of the Company.

The Company ensures a seamless co-ordination of all its functions not only in production, but also in its supply chain management. The Company markets its products across the country through three main channels viz. corporations, distributors and direct sales. The distribution strength of the Company is

built around its dispersed manufacturing facilities that cover large swathes of the Indian market with a strong network of distributors and points of sales covering numerous market segments and geographies with especially pronounced presence in the South, India's largest IMFL consuming geography.

Increased finance costs and macro economic factors have hit Company's sales hard. Both Mansion House Brandy and Courier Napoleon Brandy continue to be consumer's most preferred brands across Southern region. Dipstick studies conducted by internal teams of the Company indicated that both brands were on top of consumer's mind when it came to premium Brandies.

A large percentage of the Company's turnover is derived from South India, where any unfavourable regulatory policy may impact its business. To mitigate this risk, the Company has extended its focus on other geographies viz. Eastern Region, etc and product categories viz. Whisky, Vodka, etc.

27. INTERNAL FINANCIAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Board has laid down standards, processes and procedures for implementing the internal financial controls across the organization. ANNEXURE 'H' TO THE DIRECTORS' REPORT

BOARD OF DIRECTORS' RESPONSES TO THE OBSERVATIONS, QUALIFICATIONS AND ADVERSE REMARKS IN AUDITORS' REPORT ON THE STANDALONE AND CONSOLIDATED FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED MARCH 31, 2017

[Pursuant to Section 134(3)(f) of the Companies Act, 2013]

With reference to the Statutory Auditors' Observations, Qualifications and Adverse Remarks in their Audit Reports on the standalone and consolidated financial statements of the Company for the financial year ended March 31, 2017, the Board of Directors' provides its explanations/comments as under:

i. Auditors' observations under paragraph 1 of 'Basis for Qualified Opinion' of the Auditors' Report to the standalone and consolidated financial statements:

We draw attention to note 28 (xix) of the standalone financial statements, where there is an indication that one of the Units of the Company may be impaired. The management has not estimated the recoverable amount of the Unit as required by Accounting Standard-28 'Impairment of Assets', and hence we are unable to comment on consequential impact if any on the financial statements.

Same observations have been given with respect to note 28 (xix) of the consolidated financial statements.

Board's response: The Company had applied to the state government authorities for dual feed permission for manufacture of ENA through molasses as well as grain at one of its Unit and permission is expected soon. In view of this, the management believes that there is no impairment in value of its unit and hence the recoverable amount of the unit is not required to be estimated.

ii. Auditors' observations under paragraph 2 of 'Basis for Qualified Opinion' of the Auditors' Report to the standalone and consolidated financial statements:

We draw attention to note 28 (xx) of the standalone financial statements in respect of outstanding advances receivable amounting to ₹ 798.16 million, which are considered good and recoverable and no provision is considered necessary by the management. We are unable to verify the recoverability of the amounts due from the parties based on the audit procedures.

Same observations have been given with respect to note 28 (xxi) of the consolidated financial statements.

Board's response: In lieu of advances given to certain parties amounting to ₹ 7,981.58 lacs, the Company is in the process of completing the negotiations with the parties and completion of necessary formalities for which immovable properties have been offered.

In view of this, the management believes that no provision is considered necessary in the books of accounts.

iii. Auditors' observations under paragraph 1 of 'Emphasis of Matter' of the Auditors' Report to the standalone and consolidated financial statements:

We draw attention to note 28 (xxi) of the standalone financial statements in respect of outstanding MVAT and CST incentive of ₹ 1269.11 million receivable from the State Government for the year 2012-13 onwards.

Same observations have been given with respect to note 28 (xxii) of the consolidated financial statements.

Board's response: The Company has been following up with the Government for full disbursement of the sanctioned MVAT and CST refund.

iv. Auditors' observations under paragraph 2 of 'Emphasis of Matter' of the Auditors' Report to the standalone and consolidated financial statements:

We draw attention to note 28 (xxvi) of the standalone financial statements, stating the reasons whereby the accounts have been prepared on going concern basis though the networth of the Company is negative and it has incurred significant losses.

Board's response: Though the net worth of the Company is negative, the accounts have been prepared on 'Going Concern' basis as the management believes that the losses incurred in the recent years are mainly due to high debt resulting in high interest costs and loss in sales volume emanating from lack of adequate working capital to fund the cost of goods. The management has already taken various measures to increase the sales volume and has achieved a 12% increase in net sales over the previous year. It has also taken initiatives to reduce costs wherever possible, actively explore the possibilities of restructuring the existing debts, selling non-performing assets and considering the feasibility of raising additional capital from affiliates

or other investors. The management is confident that the effective implementation of the said plans would result in increase in the net worth of the Company in the near future.

v. Auditors' observations under paragraph [(vii)(a) and (viii)] of the Auditors' Report to the standalone financial statements:

vii) a) Undisputed statutory dues including Provident Fund, Employees' State Insurance, Income-Tax, Sales-Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and other material statutory dues *have not been regularly deposited with the appropriate authorities and there have been delays in many cases.*

According to the information and explanations given to us, there are no undisputed dues in respect of Provident Fund, Employees' State Insurance, Sales-Tax, Service Tax, Customs Duty, Excise Duty, Value Added Tax, Cess and any other material statutory dues applicable to it, which were outstanding, at the year-end for a period of more than six months from the date they became payable *except for*

Income- Tax of ₹ 99.93 million pertaining to A.Y. 2014-15 which is still unpaid.

viii) *Based on our audit procedures and as per the information and explanations given by the management, we are of the opinion that the Company has defaulted in repayment of loans to banks and financial institutions. There were no outstanding dues to any debenture holders anytime during the year.*

Board's response: The liquidity constraints faced by the Company during the financial year 2016-17 coupled with its inability to achieve breakeven sales volume due to constraints in the supply of Company's brands in key profitable States owing to shortage of working capital, bottling capacity constraints in the State of Tamil Nadu and decline in profitability due to moderation in revenues, higher finance costs and increased raw material costs are the main reasons for the above observations. The Company is making efforts to address these issues and improve its liquidity position to meet the requirement of funds and effect payments of statutory dues, borrowings and business liabilities falling due.

Annexure - A to the Independent Auditors' Report on the Consolidated Financial Statements of Tilaknagar Industries Ltd.

(Referred to in paragraph (f) under 'Report on other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Tilaknagar Industries Ltd. ("the Company" or "the Holding Company"), its Subsidiary Companies and its associate Company which are companies incorporated in India, as of March 31, 2017 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Holding Company, its Subsidiary Companies and its associate Company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the Subsidiary Companies and an associate Company, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its Subsidiary Companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial

controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to eight Subsidiary Companies and one associate Company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

 - The difference between the cost of investment in the subsidiaries and the Company's share of net assets at the time of acquisition of shares in the subsidiaries is recognized in the financial statements as Goodwill or Capital Reserve as the case may be.
 - The financial statements of the subsidiaries are drawn upto the same reporting date as that of the Company i.e. March 31, 2017 and as far as possible, the Consolidated Financial Statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances and are presented in the same manner as the Company's separate financial statements.

 - The amount of equity attributable to minorities at the date on which investment in a subsidiary is made ; and
 - The minorities share of movements in equity since the date the parent subsidiary relationship comes into existence.
 - The list of subsidiary companies which are included in Consolidated Financial Statements and the Parent Company's Holding are as under:

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

We have audited the internal financial controls over financial reporting of Tilaknagar Industries Ltd. ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- 3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Date : May 29, 2017

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.
