MANAGEMENT DISCUSSION AND ANALY-SIS REPORT

Your Directors have pleasure in presenting the management discussion and analysis report for the year ended on 31st March, 2011.

(A) INDUSTRY STRUCTURE AND DEVELOP-MENT

G.M.Breweries Limited (GMBL) is engaged in the manufacture of alcoholic liquor. Though the company has got the facility to blend and bottle both Indian made foreign liquor and country liquor, the concentration has been mainly on country liquor during the past several years due to competitive market conditions in the IMFL segment. The Company has been achieving impressive progress both in terms of value and volume in the production of country liquor during the past five years.

Even though not much official statistics are available about the production of country liquor by various manufacturers, the data gathered from The State Excise Department shows that the company contributes to about 20.56 % of the total Excise duty for country liquor in the whole of Maharashtra.

(B) OPPORTUNITIES, THREATS AND CONCERNS.

The Company's products have been enjoying consistently good brand image from the consumers for the

past several years and the company enjoys virtual monopoly in country liquor in the districts of Mumbai and Thane. It is the single largest manufacturer of country liquor in the State of Maharashtra. The company has capacity to process 13.76 crore bulk litres of country liquor per annum out of which only about 44.4% has been utilized last year. The company has got tremendous potential to utilise the balance capacity by penetrating into interior districts of Maharashtra taking advantage of its brand image. Even though stringent steps have been taken by the various Government agencies, the parallel duty evaded market which eats into Company's market share as well as Government's revenue continues to be the main threat to the Company. The company continues to make representations at various levels of the Government to take effective steps to curb the illicit market in the interest of the industry, revenue of the state as well as the public health. The Company has been facing difficulty also due to

laws. In fact the exorbitant rates of taxation is one of the factors, which breeds duty evasion. The high level of fluctuations in the prices of its main raw material namely Rectified Spirit and as well as acute shortage in the availability of Spirit are the constraints faced by the Company. To over come the problem of shortage and wide price fluctuation in glass bottles, the Company has started marketing all sizes of country liquor in PET bottles.

very high levels of taxation and frequent changes in

fluctuation in glass bottles, the Company has started marketing all sizes of country liquor in PET bottles. Even though the initial response from the market for the PET bottles was not very encouraging, there is a steady increase in the sale of PET bottles. During the year under riview about 25% of the company's total production and sale consisted of PET bottles. Company's all bottling lines have been designed to handle both glass and PET bottles.

(C) OUT LOOK

Barring the aforesaid deterrents, the company does not foresee any major threats to its growth and market share in the coming years. The existing capacity should take care of the company's requirement at least for the next Five years and the Company does not forsee any technological obsolescence for its products.

(D) <u>INTERNAL CONTROL SYSTEM AND</u> THEIR ADEQUACY

The Company has engaged the services of an independent Chartered Accountant to carry out the internal audit and ensure that recording and reporting are

adequate and proper, the internal controls exist in the system and that sufficient measures are taken to update the internal control system. The system also ensures that all transaction are appropriately authorised, recorded and reported. Exercises for safeguarding assets and protection against unauthorised use are undertaken from time to time. All these measures are continuously reviewed by the management and as and when necessary improvements are effected.

(E) <u>DISCUSSION</u> ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The financial performance during the year under reference has been very impressive. There has been a sizable increase in the turnover, as well as profits due to drop in the prices of rectified spirit compared to the previous year. However, the Company will continue its efforts to cut down the costs in all possible manner and improve the profitability in the coming years.

(F) MATERIAL DEVELOPMENTS IN HUMAN RESOURCES/INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED.

As on 31st March, 2011 the company had 141 permanent employees at its manufacturing plants and administrative office. The company recognises the importance of human value and ensures that proper encouragement both moral and financial is extended to employees to motivate them. The company enjoyed excellent relationship with workers and staff during the last year.
