38. **Voting through electronic means**

In compliance with the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management & Administration) Rules, 2014 and Regulation 44 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (as amended from time to time), and MCA Circulars dated April 08, 2020, April 13, 2020, May 05, 2020, 15th June, 2020, 28th September, 2020, 31st December, 2020, 13th January, 2021, 23rd June, 2021, 8th December, 2021, 14th December, 2021, 5th May, 2022, 28th December, 2022, 25th September, 2023 and 19th September 2024 and any other applicable notification/circular, the Company is pleased to provide the Members (whether holding shares in physical or dematerialized form) with the facility to exercise their right to vote on the matter set out in the notice by electronic means i.e. through e-voting services provided by Central Depository Services (India) Limited (CDSL). For this purpose, the Company has entered into an agreement with Central Depository Services (India) Limited (CDSL) for facilitating voting through electronic means, as the authorized e-voting agency.

The Instruction of Shareholders for E-voting and joining virtual meetings are as under

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on Wednesday, 17th September, 2025 at 9:00 A M and ends on Friday, 19th September, 2025. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Saturday, 13th September, 2025 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to **all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants**. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

The Board recommends passing of the resolutions as set out under Item No. 5 of the notice for approval of the members as Special Resolution.

Item No. 6

The Members at the 28th Annual General Meeting held on 26th September, 2024 approved payment of remuneration by way of commission to the Non-Executive Directors (including Independent Directors) annually for a period not exceeding five financial years commencing from 1st April, 2024 an amount not exceeding 1% (one percent) of the net profits of the Company for each financial year, as computed in the manner prescribed in Section 198 of the Companies Act, 2013 subject to a ceiling of Rs. 2,50,000/- in case of each such director in any financial year.

The Non-Executive Directors including Independent Directors of your Company bring with them significant professional expertise and rich experience across wide spectrum of functional areas and the role played by the Non-Executive Directors including Independent Directors in the Company's governance and performance is very important for growth of the Company. In light of their enhanced roles, responsibilities, and the time commitment required for effective oversight and guidance to the management, it is proposed to revise the existing limit of commission payable to Non-Executive Directors.

Accordingly, based on the recommendation of the Nomination and Remuneration Committee, the Audit Committee, and the Board of Directors at their meeting held on 11th August 2025 recommended for approval of the members for increase of the annual limit for payment of remuneration by way of commission to the Non-Executive Directors (including Independent Directors) of the Company for a period not exceeding five financial years commencing from 1st April, 2025, of an amount not exceeding 1% (one percent) of the net profits of the Company for each financial year, as computed in the manner prescribed in Section 198 of the Companies Act, 2013 to be distributed proportionately among all Non-Executive Directors subject to a ceiling of Rs. 10,00,000/- in case of each such director in each financial year, in addition to the fee payable to such Directors for attending the meetings of the Board and/or Committee thereof and reimbursement of expenses for participation in the Board and/or other meetings.

None of the Directors, Key Managerial Personnel of your Company and their relatives is interested or concerned in the proposed resolution except all Non-Executive Directors (including Independent Directors) of the Company to the extent of commission that may be payable to them from time to time.

The Board recommends passing of the resolutions as set out under Item No. 6 of the notice for approval of the members as Special Resolution.

Item No. 7

The members of the Company, by way of passing a special resolution through postal ballot on 5th August 2023, had authorised the Board of Directors of the Company to borrow monies, apart from temporary loans obtained from the company's bankers in the ordinary course of business, in excess of the aggregate of the paid-up share capital, free reserves and securities premium of the Company for the time being, that is to say, reserves not set apart for any specific purpose, provided that the total such borrowings by the Board at any time shall not exceed the limit of Rs.1000 Crores (Rupees One Thousand crores only).

In order to facilitate future business expansion and to provide resources to meet additional fund requirements for the growing operations of the Company, the Board Directors of the Company at their meeting held on 11th August 2025 decided to increase the limit from Rs. 1000 Crores (Rupees One Thousand crores only) to Rs. 1500 Crores (One Thousand Five Hundred crores only). The consent of the members is therefore, sought in accordance with the provisions of Section 180(1)(c) of the Companies Act, 2013 to enable the Board of Directors to exercise powers in relation to borrowings over and above the limit referred in Section 180(1)(c) of the Companies Act, 2013.

The proposed resolution being in the interest of business of the Company, the Board recommends the resolution set forth in item no. 7 for the approval of members as Special Resolution.

None of the Directors of the Company either directly or through their relatives are, in any way, concerned or interested, whether financially or otherwise, in the proposed resolution.

Item No. 8

The members of the Company by way of passing a special resolution through postal ballot on 5th August 2023 _had authorised the Board of Directors of the Company to Mortgage or otherwise dispose of or to create charge, mortgage and/ or hypothecate the whole of or substantially the whole of the undertakings of the Company not exceeding Rs 1000 Crores (Rupees One thousand Crores only) at such time and on such terms and conditions as the Board may deem fit ,in the best interest of the Company.

Keeping in view the authorisation to the Board of Directors to borrow amount of Rs. 1500 crores in excess of the aggregate of the paid-up share capital, free reserves and securities premium of the company pursuant to section 180 (1) (c) as discussed in item no.7 herein above it is requisite and necessary to modify the Special Resolution passed earlier on 5th August 2023.

The consent of the members is therefore, sought in accordance with the provisions of Section 180(1)(a) of the Companies Act, 2013 to hypothecate/mortgage/pledge and/or create charge on all or any immovable and movable properties of the Company both present and future or the whole or substantially the whole of the undertaking(s) of the Company as and when necessary to secure the borrowings from time to time, within the overall ceiling approved by the Members of the Company, in terms of Section 180(1) (c) of the Companies Act, 2013

The proposed resolution being in the interest of business of the Company, the Board recommends the resolution set forth in item no. 8 for the approval of members as Special Resolution.

None of the Directors of the Company either directly or through their relatives are, in any way, concerned or interested, whether financially or otherwise, in the proposed resolution

Item No. 9

Regulation 23 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations') requires member's approval by means of an ordinary resolution for all material related party transactions, even if such transactions are in the ordinary course of business of the Company and on arm's length terms. A transaction with a related party shall be considered 'material' under the Listing Regulations, if the transaction/ transactions with a related party to be entered into individually or taken together with previous transactions during a financial year exceeds rupees one thousand crore or 10% of the annual consolidated turnover of the Company as per the last audited financial statement of the Company, whichever is lower.

SEBI vide its circular dated 8th April 2022, has clarified that in case of the omnibus shareholders' approval for material RPTs, the resolution approved in an AGM shall be valid upto the date of the next AGM or a period not exceeding fifteen months. The approval of the Members of the Company for Omnibus Material Related Party

Transaction was obtained through an Ordinary Resolution at the 28th Annual General Meeting held on 26th September, 2024, which is valid till the date of ensuing AGM.

Further, the aggregate value of the transactions with a related party are likely to exceed the aforesaid materiality limit during the Financial Year 2025-26, as per the last audited financial statements of the Company and may continue till the conclusion of Annual General Meeting for the said Financial Year 2025-26. Therefore, the said transactions would be considered to be material related party transactions for the purpose of provisions of Regulation 23 of Listing Regulations and thus, requires the approval of the Members of the Company through an Ordinary Resolution. Accordingly, the approval of Members is sought to renew the limits of RPTs through Ordinary Resolution at the ensuing 29th Annual General Meeting to be held on 20th September, 2025. It is hereby clarified that the approval by the shareholders, of transactions within specified limits, upto the next AGM, is without prejudice to the need for the Audit Committee to approve, authorize and review transactions on a financial year basis. The Audit Committee and the Board of Directors have reviewed the terms & conditions of these transactions and approved and recommended to the Members for their approval by way of an Ordinary Resolution.

Details in respect of the related party transactions including the Information pursuant to the SEBI circular no. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024, are specified below:

16.	Justification as to why the RPT is in the interest of the listed entity	The Company is a Non-Banking Financial Company, Middle layer and the Company, in its ordinary course of business grants loans and makes investments in the marketable securities. There are varying opportunities available in the market for granting of loans (tenure and interest rates) and making investments, that changes from time to time based on the business scenario and the prevailing money market conditions. To be able to fully capitalize on such business opportunities, your Company proposes to take limits at commercial terms for availing and granting of loans from related parties depending upon the working capital requirements/Investment opportunities available from time to time. The Loans granted to related parties are generally working capital demand loans/Term loans. These loans are generally funded from the Company's own funds. Owing to short term tenure/repayable on demand nature such loans carry lower credit and liquidity risk. Therefore, the Board is of the opinion that the aforesaid related party transactions is in the best interests of the Company.

1. Preamble

- 1.1 Sub-section (3) of Section 178 of the Companies Act, 2013 states that the Nomination and Remuneration Committee shall formulate the criteria for determining qualifications, positive attributes and independence of a director and recommend to the Board a policy, relating to the remuneration for the directors, key managerial personnel and other employees.
- 1.2 Section 178 of the Companies Act, 2013 has been made effective from April 1, 2014 by the Central Government by notification no. S.O. 902(E) issued on March 26, 2014. Therefore this Nomination and Remuneration Policy ("the Policy") has been framed in compliance with the provisions of the Act and Rules made under the Act.
- 1.3 Pursuant to the amendments in Regulation 19 read with Schedule II of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 vide SEBI (LODR) (Amendment) Regulations, 2018 and the Companies (Amendment) Act, 2017, the Policy has been further revised and adopted by the Board in its Meeting held on 28th March, 2019.
- 1.4 Thereafter, in view of the recent requirement of Scale Based Regulation framework issued by Reserve Bank of India (RBI) vide circular RBI/2021-22/112 DOR.CRE.REC.No.60/03.10.001/2021-22 and revised/updated as per the Guidelines on Compensation of Key Managerial Personnel and Senior Management in NBFCs issued by Reserve Bank of India (RBI) vide circular dated RBI/2022-23/36 DOR.GOV.REC.No.29/18.10.002/2022-23 on April 29, 2022 ("RBI Guidelines").

Further Reserve Bank of India has issued Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023, dated October 19, 2023, consolidating all above mentioned Master circulars on Scale Based Regulations.

The Board of Directors had reviewed and revised the policy in place of the existing policy in their meeting held on 16th January 2024,

The Policy provides a framework for remuneration to the members of the Board of Directors ("Board"), Key Managerial Personnel ("KMP") and the, Senior Management Personnel ("SMP") (collectively referred to as "Executives") and other employees of the Company. (collectively referred to as "Executives").

The expression "senior management" means officers/personnel of the Company who are members of its core management team excluding directors comprising all members of the management one level below the chief executive officer/managing director/whole time director/manager (including chief executive officer/manager, in case they are not part of the board) and shall specifically include the functional head by whatever name called and the company secretary and chief financial officer.

Further, the term "Applicable Law" includes any statute, law, regulations, ordinance, rule, judgment, order, decree, bye-law, clearance, directive, guideline, policy, requirement, notifications and clarifications or other governmental instruction and/or mandatory standards as may be applicable to the Company from time to time.

All the other terms used in the Policy shall have the same meaning as assigned to them under the Applicable Law.

- 1.4 The Members of the Nomination and Remuneration Committee ("the Committee or NRC") shall be appointed by the Board and shall comprise three or more non-executive directors out of which not less than one-half shall be independent directors. Any fraction in the one-half shall be rounded off to one.
- 1.5 This Policy will be called "KVL Nomination & Remuneration Policy" and referred to as "the Policy".
- 1.6 The Policy will be reviewed at such intervals as the Nomination and Remuneration Committee will deem fit.

2. Objectives

2.1 The objectives of the Policy are as follows:

- 2.1.1 To set criteria for determining qualifications, positive attributes and independence of a director, and remuneration of the Executives.
- 2.1.2 To enable the Company to attract, retain and motivate highly qualified members for the Board and other executive level to run the Company successfully.

- 2.1.3 To enable the Company to provide a well-balanced and performance-related compensation package, taking into account shareholder interests, industry standards and relevant Indian corporate regulations.
- 2.1.4 To ensure that the interests of Board members & senior executives are aligned with the business strategy and risk tolerance, objectives, values and long-term interests of the company and will be consistent with the “pay-for-performance” principle.
- 2.1.5 To ensure that remuneration to directors, KMP, senior management and employees of the Company involves a balance between fixed and incentive pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

3. Principles of remuneration / compensation

- 3.1 **Support for Strategic Objectives:** Remuneration and reward frameworks and decisions shall be developed in a manner that is consistent with, and supports and reinforces the achievement of the Company’s vision and strategy.
- 3.2 **Transparency:** The process of remuneration management shall be transparent, conducted in good faith and in accordance with appropriate levels of confidentiality.
- 3.3 **Internal equity:** The Company shall remunerate the Executives in terms of their roles within the organisation. Positions shall be formally evaluated to determine their relative weight in relation to other positions within the Company.
- 3.4 **External equity:** The Company strives to pay an equitable remuneration, capable of attracting and retaining high quality personnel. Therefore the Company will remain logically mindful of the ongoing need to attract and retain high quality people, and the influence of external remuneration pressures. Reference to external market norms will be made using appropriate market sources, including relevant and comparative survey data, as determined to have meaning to the Company’s remuneration practices at that time.
- 3.5 **Flexibility:** Remuneration and reward shall be sufficiently flexible to meet both the needs of individuals and those of the Company whilst complying with relevant tax and other laws.
- 3.6 **Performance-Driven Remuneration:** The Company shall establish a culture of performance-driven remuneration through the implementation of the Performance Incentive System.
- 3.7 **Affordability and Sustainability:** The Company shall ensure that remuneration is affordable on a sustainable basis.
- 3.8 Compensation components are aligned effectively with prudent risk taking to ensure that compensation is adjusted for all types of risk taking;
- 3.9 Compensation outcomes are symmetric with risk outcomes;
- 3.10 Specifically for Executive Directors, KMPs and SMPs: Compensation pay-outs are sensitive to the Time Horizon of the Risk. The mix of cash, equity and other forms of compensation will be consistent with risk alignment.

India continued to be one of the fastest-growing major economies, driven by strong domestic demand, structural reforms and supportive policies. In recent years, the country's rapid economic expansion enabled it to surpass the UK, making it the world's fifth-largest economy. However, in FY2025, global uncertainties, rising geopolitical tensions and persistent inflationary pressures contributed to a slowdown in overall economic growth. According to the second advance estimates from the Ministry of Statistics and Programme Implementation (MOSPI), India's economy grew by 6.5% y-o-y in FY2025, compared to 9.2% in the previous year, thereby solidifying its status as the fastest growing major economy. Inflationary pressures remained a key concern in FY2025, driven by global supply chain disruptions and commodity price volatility. In response, the RBI's Monetary Policy Committee (MPC) reduced the repo rate by 25 basis points in two successive cuts, bringing it down to 6% as of April 2025, while continuing with an accommodative stance.

India continued on a steady path of economic growth, driven by a strong manufacturing sector, an expanding services industry and increased investments in infrastructure. Various government-led initiatives, including digital transformation efforts and financial inclusion programs, played a crucial role in strengthening domestic manufacturing capabilities and attracting foreign direct investment (FDI) across key sectors. The availability of capital, evolving investment trends and access to credit remained essential factors in driving economic expansion, supporting business growth, facilitating infrastructure development and creating employment opportunities. Additionally, interest rates and government policy measures significantly contributed to maintaining economic stability, positively influencing various industries and boosting consumer demand. The steady rise in urbanisation, along with a rapidly growing middle class, further contributed to increased consumer spending across multiple sectors. With these strong economic drivers in place, India's economy is projected to grow at a robust rate of 6.5% in FY2026.

However, risks stemming from geopolitical tensions, global commodity price fluctuations and financial market uncertainties persist. Looking ahead, India's economic outlook remains positive, with growth projections exceeding the global average. India is well-positioned to sustain its growth momentum and establish itself as a leading economic powerhouse.

Opportunities and Threats

Non-Banking Financial Companies ("NBFCs") remain one of the most important pillars for ushering financial inclusion in India, reaching out to a hitherto under/unserved populace and in the process leading to "formalization" of the credit demand. NBFCs cater to the needs of both the retail as well as commercial sectors and, at times, have been able to develop strong niches with their specialized credit delivery models that even larger players including banks, have found hard to match. This has further provided a fillip to employment generation and wealth creation and in the process, bringing in the benefits of economic progress to the unserved / underserved sections of the business and society and is vital to the economic growth of the country.

The RBI has been continually strengthening the supervisory framework for NBFCs in order to ensure sound and healthy functioning and avoid excessive risk taking. It has issued several new guidelines in the recent past. India has made significant progress from being classified as a fragile economy in the 2010s to emerging as a key driver of global growth, even as the rest of the world faces economic uncertainties. Two key factors supporting this growth are the country's demographic dividend and its expanding middle-income population. Currently, around 30% of India's population falls within the middle-income category, contributing approximately 48% of total domestic consumption. This segment is expected to grow to 40% of the population, as per the PRICE-ICE 3600 Survey and will be dominated by the working age population with a high propensity to spend, including leveraged spending. Additionally, policy reforms focused on infrastructure development, manufacturing expansion and export growth are expected to create more employment opportunities, further increasing the size of the middle-income group and improving living standards.

Major threats is to access to capital for the NBFCs in India. NBFCs are forced to rely on bank loans or the issue of bonds/NCD/CP to raise money, as opposed to banks, which have access to low-cost deposits to support credit growth. . It may be challenging for NBFCs to compete with banks on interest rates. Ensuring smooth access to low-cost funding is essential for NBFCs to maintain the last-mile flow of credit across the economy. The uncertainties

and volatility in the financial market are a continuing threat to the organizational performance. However, the twin features of foresightedness and focused analysis of the market have overcome the challenges posed.

Nonetheless, your Company with its strong parentage, brand recognition, liquidity, strong network and strong client network, is poised to capitalize on this opportunity and foresees several profitable opportunities and tapping deeper markets. Further, the Company's robust risk management framework with a deep understanding of risk evolution mitigation, underwriting and credit controls shall help to arrest the risk of deterioration in asset quality.

Segment wise performance

The Company being a non-banking financial company operates under a single segment viz providing loans and investments in shares and securities.

Outlook

Looking ahead, global growth is expected to moderate further to 2.8% in CY2025, shaped by new unilateral or bilateral tariff regimes and rising geopolitical and policy uncertainties.

India is expected to remain relatively shielded from global headwinds, maintaining its strong growth trajectory. The country's long-term structural growth drivers remain intact, supported by favourable demographics, stable governance, and ongoing infrastructure development. As per the IMF's World Economic Outlook Report, India will continue to lead as the fastest-growing major economy, with growth underpinned by an expanding services sector, a strengthening manufacturing base, and supportive government policies aimed at improving infrastructure and rationalising tax regimes. The IMF projects India's nominal gross domestic product (GDP) to reach USD 4.187 trillion in 2025, surpassing Japan's estimated USD 4.186 trillion.

India's growth forecast has been slightly revised down from 6.5% to 6.2% for 2025, it remains the fastest-growing major economy among its global counterparts.

Risks and Concerns:

The Company being a Non-Banking Financial Company is mainly engaged in the business of providing Loans and making Investment in Shares and Securities and therefore it is exposed to various financial risks such as credit, market, interest rate and liquidity risks associated with financials products.

However, the Company has a robust financial risk management system in place to identify, evaluate, manage and mitigate various risks associated with financial products and ensure that the Company accomplishes its desired financial objectives. The Company has a Risk Management Policy in accordance with the provisions of the Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 issued by Reserve Bank of India. The Management evaluates the execution of Risk Management Practices in the Company, in the areas of risk identification, assessment, monitoring, mitigation and reporting from time to time.

The risk management framework is based on assessment of risks through proper analysis and understanding of the underlying risks before undertaking any transactions and changing or implementing processes and systems. This risk management and mitigation mechanism is supported by regular review, control, self-assessment and monitoring of key risk indicators.

Hence, the Management regularly monitors and reviews the continuous changing economic and market conditions in order to take timely and prudent investment and lending decisions.

Internal Control system and their adequacy:

The Company has a proper and adequate internal control system to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions are authorised, recorded and reported correctly. The internal control is exercised through laid out policies, guidelines and procedures. It is supplemented by an extensive program of internal audits conducted by the Internal Auditors and tested by the Statutory Auditors of the Company. The audit observations and corrective action taken thereon are periodically reviewed by the audit committee to ensure effectiveness of the internal control system. The internal control is designed to ensure that the financial and other records are reliable for preparing financial statements and other data, and for maintaining accountability of persons.

Financial and operational performance:

The financial statements have been prepared in accordance with Indian Accounting Standards notified under section 133 of the Companies Act 2013, read together with the Companies (Indian Accounting Standards) Rules, 2015 (as amended) together read with the MCA notification dated 11 October 2018 which states the mandate for adoption of these standards by the NBFC Companies, as defined under the Companies (Indian Accounting Standards)

(Amendment) Rules, 2016. Detailed highlighted of financials and operational performance is provided in the Directors Report which forms part of the Annual Report.

Material developments in Human Resources:

Human resources remain central to achieving the Company's goals. The Company continues with the philosophy of thrust and focus on human resources for its continued success. In order to strengthen our human resources for meeting the future challenges and expansion plans, we have focused on hiring the best resources available and retaining and developing our existing talent pool.

INDEPENDENT AUDITOR'S REPORT

To the Members of Kiran Vyapar Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of Kiran Vyapar Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of the material accounting policy information and other explanatory information (hereinafter referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with Indian Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March 2025, its profit (including other comprehensive income), the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current year. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Sl. No.	Key Audit Matter	Auditor's Response
1	<p>As at 31 March 2025, the Company has unquoted investments amounting to Rs.1,04,001.62 lakhs which includes investments in equity instruments, preference instruments, venture capital funds, Mutual Funds and debentures. These investments represent 74% of the total investments of the Company as at 31st March 2025.</p> <p>The aforesaid investments are not traded in the active market. These investments are fair valued using Level 3 inputs. The fair valuation of these investments is determined by a management-appointed independent valuation specialist for equity and preference instruments. Investments in venture capital funds are valued based on the net asset value declared by the respective funds. The process of computation of fair valuation of investments includes use of unobservable inputs, management judgements and estimates which are complex.</p> <p>The key assumptions underpinning management's assessment of fair value of these investments include application of liquidity discounts; calculation of discounting rates and the estimation of projections of revenues, projections of future cash flows and growth rates.</p>	<p>Our audit procedures, included, but were not limited to, the following:</p> <p>Obtained a detailed understanding of the management's process and controls for determining the fair valuation of unquoted investment. The understanding was obtained by performance of walkthroughs which included inspection of documents produced by the Company and discussion with those involved in the process of valuation;</p> <p>Evaluated the design and the operational effectiveness of relevant key controls over the valuation process, including the Company's review and approval of the estimates and assumptions used for the valuation including key authorization and data input controls, independent price verification performed by the management expert and model governance and valuation;</p> <p>Assessed the appropriateness of the valuation methodology used for the unquoted investment in accordance with the Company's policy and tested the mathematical accuracy of the management's model adopted;</p>

<p>The valuation of these investments was considered to be one of the areas which required significant auditor attention and was one of the matters of most significance in the Standalone Financial Statements due to the materiality of total value of investments to the Standalone Financial Statements and the complexity involved in the valuation of these investments.</p>	<p>Obtained the valuation report from management's expert and assessed the expert's competence, objectivity and independence in performing the valuation of these investments;</p> <p>Assessed the appropriateness of the valuation model used by the management and the assumptions used relating to projected cash flows and the discounting factor.</p> <p>Ensured the appropriateness of the carrying value of these investments in the Standalone Financial Statements and the gain or loss recognised in the Standalone Financial Statements as a result of such fair valuation;</p> <p>Ensured the appropriateness and adequacy of disclosures in accordance with the applicable accounting standards.</p>

Information other than the Standalone Financial Statements and Auditor's Report Thereon ("Other Information")

The Company's management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis and Board's Report including Annexures thereto, but does not include the Standalone Financial Statements and our Auditor's Report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Standalone Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of the Standalone Financial Statements that give a true and fair view of the financial position, financial performance including total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls based on our audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's Report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefit of such communication.

Other Matters

The audit of Standalone Financial Statement for the year ended 31st March, 2024 included in the Standalone Financial Statements of the current year, prior to giving effect to the adjustments described in Note 48 to the Standalone Financial Statements relating to the de-recognition of the Company's investment in subsidiaries and associates on account of their merger with the transferee company, was carried out and reported by M/s B. Chhawchharia & Co., Chartered Accountants, who has expressed an unmodified conclusion vide their audit report dated 14th May, 2024. This report has been furnished to us and which has been relied upon by us for the purpose of our audit of the Standalone Financial Statements. We have reviewed the adjustments to reflect the effects of the de-recognition of the Company's investment as described in Note 48 to restate the Standalone Financial Statements for the year ended 31st March, 2024. In our conclusion, such adjustments are appropriate and have been properly applied. We further state that we were not engaged to audit, review or apply any procedures to the Standalone Financial Statements of the company for the year ended 31st March, 2024 other than with respect to the above adjustments and accordingly, we do not express an opinion or review conclusion or any other form of assurance on the Financial Statements for the year ended 31st March, 2024.

Our conclusion is not modified in respect of this matter.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in Paragraph-1 of Report on Other Legal and Regulatory Requirements Section of our Report of even date to the members of Kiran Vyapar Limited on the Audit of Standalone Financial Statements for the year ended 31st March, 2025

In terms of the information and explanations sought by us and provided to us by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief we state that:

- (i) a. A. The company has maintained proper records showing full particulars, including quantitative details and situation of Property Plant and Equipment.
B. The company does not have any intangible assets;
- b. The Company has a program of verification of Property, Plant and Equipment to cover all the items once in every three years, in a phased manner, which in our opinion is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program certain Property Plant and Equipment have been physically verified by the management during the year and according to the information and explanations given to us no material discrepancies were noticed on such verification.
- c. The Company did not have any immovable property at any time during the year, hence reporting under clause 3(i)(c) of the Order is not applicable to the Company.
- d. As explained to us, the Company has not revalued any of its Property Plant and Equipment during the year.
- e. As explained to us, no proceedings have been initiated during the year or are pending against the Company as at March 31, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- (ii) a. According to the information and explanations given to us, the company is not required to maintain any inventory during the year and hence, reporting under clause 3(ii)(a) of the Order, is not applicable.
- b. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned any working capital limits in excess of five crores rupees, in aggregate, from banks or financial institutions on the basis of security of current assets, at any point, during the period covered under our audit. Accordingly, reporting under clause 3(ii)(b) is not applicable.
- (iii) The Company has made investments in companies and granted unsecured loans, during the year, in respect of which:
 - a. The Company is a Non-Banking Finance Company and its principal business is to give loans. Accordingly, reporting under clause 3(iii)(a) of the Order is not applicable to the Company.
 - b. In our opinion and according to the information and explanations given to us, the investments made and the terms and conditions of the loans given during the year are, prima facie, not prejudicial to the Company's interest;
 - c. In our opinion and according to the information and explanations given to us, and on the basis of our examination of the records of the Company, the schedule of repayment of principal and interest has been stipulated and the receipts of principal and interests are regular wherever due except as under:-

Sl.No.	Type of Entity	Amount (Rs. in Lakhs)	Due Date	Extent of delay
1	Company	68.24	18-07-2019	2,084 days
	Total	68.24		

- d. According to the information and explanations given to us and based on the audit procedures performed, in respect of loans granted, there is no overdue amount remaining outstanding for more than 90 days, as at the balance sheet date except as under:-

No. of cases	Principal Amount Overdue (Rs. in lakhs)	Interest Overdue (Rs. in lakhs)	Total Overdue (Rs. in lakhs)
1	68.24	-	68.24
Total	68.24	-	68.24

Reasonable steps have been taken by the Company for recovery of such amounts.

- e. The Company is a Non-Banking Finance Company and its principal business is to give loans. Accordingly, reporting under clause 3(iii)(e) of the Order is not applicable to the Company.
- f. According to the information and explanations given to us and based on the audit procedures performed, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment during the year. Hence, reporting under clause 3(iii)(f) is not applicable.
- (iv) The Company has not granted any loans or provided guarantees in contravention of provisions of section 185 of the Act. The Company has complied with the provisions of Section 186(1) of the Act; as informed, the other provisions of Section 186 of the Act are not applicable to the Company.
- (v) The Company has not accepted any deposits or amounts deemed to be deposits from the public under sections 73 to 76 of the Act and the rules framed thereunder to the extent notified. Accordingly, reporting under clause 3(v) of the Order is not applicable.
- (vi) According to the information and explanations given to us, the maintenance of cost records has not been specified by the Central Government of India, under Section 148(1) of the Act. Accordingly, reporting under clause 3(vi) of the Order is not applicable.
- (vii) In respect of statutory dues:

- a. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company is regular in depositing the undisputed statutory dues including Goods and Service Tax, income tax and other material statutory dues applicable to it with the appropriate authorities. Further, there were no undisputed dues payable in respect of Goods and Service Tax, income tax and other material statutory dues which were in arrears as at 31st March, 2025 for a period of more than six months from the date they became payable.
- b. According to the information and explanations given to us, there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:-

Name of the statute	Nature of dues	Amount (Rs. in Lakhs)	Period to which the amount relates	Forum where dispute is pending

- (viii) According to the information and explanation given to us, there were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessment under the Income Tax Act, 1961. Accordingly, clause 3(viii) of the Order is not applicable.
- (ix) a. According to the information and explanation given to us, during the course of our audit, the company has not defaulted in repayment of loans or borrowings or in the payment of interest thereon to any lender.
- b. According to the information and explanations given to us, we report that the Company has not been declared a wilful defaulter by any bank or financial institution or other lender.
- c. In our opinion and according to the information and explanations given to us, money raised by way of term loans were applied for the purposes for which these were obtained.
- d. According to the information and explanations given to us, and on an overall examination of the Standalone Financial Statements of the Company, funds raised by the Company on short term basis have not been utilised for long term purposes.
- e. According to the information provided to us during the course of the audit, the company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.
- f. According to the explanations given to us, the company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies.

- (x) a. According to the information and explanations given to us and based on our examination of the books and records, we report that the Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, reporting under clause 3 (x)(a) of the order is not applicable.
- b. According to the information and explanations given to us and based on our examination of the books and records, we report that the company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, reporting under clause 3 (x)(b) of the order is not applicable.
- (xi) a. According to the information and explanations given to us and on the basis of our examination of the records of the Company and in accordance with generally accepted auditing practices in India, no material case of fraud by the Company or on the Company has been noticed or reported during the year.
- b. According to the information and explanations given to us and to the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act 2013 has been filed during the year in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- c. According to the information and explanation given to us no whistle blower complaint has been received during the year by the company.
- (xii) According to the information and explanations given to us, the company is not a Nidhi Company. Accordingly, reporting under clause 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us and based on our examination of the books and records, transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the Standalone Financial Statements as required by the applicable Indian Accounting Standards.
- (xiv) a. According to the information and explanations given to us and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.
- b. The reports of the Internal Auditors for the year under audit were considered by us.
- (xv) The Company has not entered into any non-cash transactions specified under section 192 of the Act with directors or persons connected with directors during the period. Accordingly, Clause 3(xv) of the Order is not applicable.

ANNEXURE B TO THE AUDITOR'S REPORT

(Referred to in paragraph-2(f) under 'Report on Other Legal and Regulatory Requirements' of our Report of even date to the members of Kiran Vyapar Limited on the Standalone Financial Statements for the year ended 31st March, 2025)

Report on the Internal Financial Controls with reference to the aforesaid Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013("the Act")

We have audited the internal financial controls with reference to Standalone Financial Statements of Kiran Vyapar Limited ("the Company") as of 31st March, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's and Board of Directors' Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to Standalone Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Standalone Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Standalone Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to Standalone Financial Statements.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial controls with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial controls with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has maintained, in all material respects, adequate internal financial controls with reference to the Standalone Financial Statements and such internal financial control with reference to the Standalone Financial Statements were operating effectively as at 31st March, 2025, based on the internal control with reference to the Standalone Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Summary of Material Accounting Policies and Other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

1 (a) Corporate Information

Kiran Vyapar Limited ("the Company") is a public limited company domiciled in India having its registered office at 7, Munshi Premchand Sarani, Hastings, Kolkata-700022 and incorporated under the provisions of the Companies Act, 1956. The Company is listed on Bombay Stock Exchange. The Company is a Non-Banking Financial Company, Non deposit taking, categorised as Middle Layer (NBFC-ND-ML) pursuant to Master Direction - Reserve Bank of India (Non-Banking Financial Company - Scale Based Regulation) Directions, 2023 and is registered with the Reserve Bank of India.

(b) Basis of preparation of standalone financial statements

These standalone financial statements has been prepared in accordance with Indian Accounting Standards notified under section 133 of the Companies Act 2013, read together with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time ('Ind AS') along with other relevant provisions of the Act; Master Direction - Reserve Bank of India (Non-Banking Financial Company - Scale Based Regulation) Directions, 2023. The Guidance Note on Division III - Schedule III to the Companies Act, 2013 issued by the Institute of Chartered Accountants of India ("ICAI") has been followed insofar as they are not inconsistent with any of these Directions.

These standalone financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these standalone financial statements.

(Amounts in the standalone financial statements are presented in Indian Rupees in Lakhs rounded off to two decimal places, unless otherwise stated).

(c) Presentation of standalone financial statements

The Company presents its balance sheet in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in note 36.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business.
- The event of default.
- The event of insolvency or bankruptcy of the Company and/or its counterparties.

(d) Material judgements, estimates and assumptions

The preparation of the standalone financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Business model assessment

Classification and measurement of financial assets depends on the results of the Solely Payment of Principal and Interest and the business model test. The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

Summary of Material Accounting Policies and Other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

Provisions and other contingent liabilities

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Company's business. When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed. Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

(e) Application of new accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules issued from time to time. For the Year ended 31st March 2025, MCA notified IND-AS 117- Insurance Contracts & amendments to IND-AS 116 - Leases, relating to sale and lease back transactions, applicable w.e.f. April, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any impact in its financial statements.

On 7th May, 2025 MCA notified the amendments to IND AS-21-Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual period beginning on or after 1st April, 2025. The Company will be assessing the probable impact of these amendments on its financial statements for the financial year 2025-26.

2 Material accounting policies

2.01 Revenue recognition

Interest income (Effective interest rate method)

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost, debt instrument measured at FVOCI and debt instruments designated at FVTPL. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset. The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges). If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk. The adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in the statement of profit and loss.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets net of upfront processing fees. When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cures and is no longer credit-

impaired, the Company reverts to calculating interest income on a gross basis. For purchased or originated credit-impaired (POCI) financial assets, the Company calculates interest income by calculating the credit-adjusted EIR and applying that rate to the amortised cost of the asset. The credit-adjusted EIR is the interest rate that, at original recognition, discounts the estimated future cash flows (including credit losses) to the amortised cost of the POCI assets. Interest income on all trading assets and financial assets mandatorily required to be measured at FVTPL is recognised using the contractual interest rate in net gain on fair value changes.

Dividend income

Dividend income (including from FVOCI investments) is recognised when the Company's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

Dividends are recognised in profit or loss only when:

- a) the entity's right to receive payment of the dividend is established;
- b) it is probable that the economic benefits associated with the dividend will flow to the entity; and
- c) the amount of dividend can be measured reliably

Trading income

Trading income includes all gains and losses from changes in fair value and the related interest income or expense and dividends, for financial assets and financial liabilities held for trading.

2.02 Financial instruments**Point of recognition**

Financial assets and liabilities, with the exception of loans, debt securities, deposits and borrowings are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans are recognised when funds are transferred to the customers' account. The Company recognises debt securities, deposits and borrowings when funds reach the Company.

Initial recognition

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments, as per the principles of the Ind AS. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from, this amount. Trade receivables are measured at the transaction price. When the fair value of financial instruments at initial recognition differs from the transaction price, the Company accounts for as mentioned below:

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Group recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

Subsequent measurement of financial liabilities

All financial liabilities of the Company are subsequently measured at amortized cost using the effective interest method. Under the effective interest method, the future cash payments are discounted exactly to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Statement of Profit and Loss.

(All amounts in ₹ lakhs, unless otherwise stated)

Subsequent measurement of financial assets

For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria:

- i. The Company's business model for managing the financial asset; and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Company classifies its financial assets into the following categories:

- (a) Financial assets measured at amortized cost
- (b) Financial assets measured at fair value through other comprehensive income (FVTOCI)
- (c) Financial assets measured at fair value through profit or loss (FVTPL)

(a) Financial assets measured at amortized cost:

A Financial asset is measured at the amortized cost if both the following conditions are met:

- (i) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows; and
- (ii) The contractual terms of the Financial asset give rise on specified dates to cash Flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and cash equivalents, other bank balances, trade receivables, loans and other financial assets of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method. Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Statement of Profit and Loss. The amortized cost of a financial asset is also adjusted for loss allowance, if any.

(b) Financial assets measured at FVTOCI:

A financial asset is measured at FVTOCI if both of the following conditions are met:

- (i) The Company's business model objective for managing the financial asset is achieved both by collecting contractual cash flows and selling the financial assets; and
- (ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to certain investments in debt and equity instruments. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of profit and loss under 'Other Comprehensive Income (OCI)'. However, the Company recognizes interest income and impairment losses and its reversals in the Statement of Profit and Loss. On de-recognition of such financial assets, cumulative gain or loss previously recognized in OCI is reclassified from equity to the Statement of Profit and Loss, except for instruments which the Company has irrevocably elected to be classified as equity through OCI at initial recognition, when such instruments meet the definition of Equity under Ind AS 32 Financial Instruments: Presentation and they are not held for trading. The Company has made such election on an instrument by instrument basis.

Gains and losses on these equity instruments are never recycled to profit or loss. Dividends are recognised in the statement of profit or loss as dividend income when the right of the payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment.

Summary of Material Accounting Policies and Other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

(c) Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss.

Financial assets or financial liabilities held for trading:

The Company classifies financial assets as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets and liabilities are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised as net gain on fair value changes in the Statement of Profit and Loss.

Interest and dividend income or expense is recorded in net gain on fair value changes according to the terms of the contract, or when the right to payment has been established. Included in this classification are debt securities, equities, and customer loans that have been acquired principally for the purpose of selling or repurchasing in the near term.

De-recognition:**(a) Financial asset:**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Company's balance sheet) when any of the following occurs:

- i. The contractual rights to cash flows from the financial asset expires;
- ii. The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset. A regular way purchase or sale of financial assets has been derecognised, as applicable, using trade date accounting.
- iii. The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iv. The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the Financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On de-recognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Statement of Profit and Loss.

(b) Financial liability:

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

Impairment of financial assets:

In accordance with Ind AS 109, the Company applies expected credit loss ('ECL') model for measurement and recognition of impairment loss for financial assets. ECL is the weighted-average of difference between all contractual

Summary of Material Accounting Policies and Other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Company is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

In respect of trade receivables, the Company applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Other financial assets

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Company uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Company compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Company assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.03 Fair Value

The Company measures its financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the standalone financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

- Level 1 (unadjusted) - Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.
- Level 2 - Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for

Summary of Material Accounting Policies and Other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Company will classify the instruments as Level 3.

- Level 3 - Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

2.04 Income Taxes

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted or substantively enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Company has not recognised a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint arrangements, except to the extent that both of the following conditions are satisfied:

- the parent, investor, joint venture or joint operator is able to control the timing of the reversal of the temporary difference; and

Summary of Material Accounting Policies and Other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

- it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/expense are recognized in Other Comprehensive Income. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

2.05 Provisions and contingencies

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

2.06 Cash and Cash Equivalents

Cash and cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid investments.

2.07 Employee Benefits

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Company recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-employment benefits

(i) Defined contribution plans

Defined contribution plans are employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Company recognizes contribution payable to a defined contribution plan as an expense in the Statement of Profit and Loss when the employees render services to the Company during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

(All amounts in ₹ lakhs, unless otherwise stated)

(ii) Defined benefits plans**Gratuity scheme:**

Gratuity is a post employment benefit and is a defined benefit plan. The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if any. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

Recognition and measurement of defined benefit plans

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

The Company does not presents the above liability/(asset) as current and non-current in the Balance Sheet as per the principles of Division III financial statements as per the MCA notification dated 11 October 2018.

(iii) Other long-term employee benefits:

Entitlements to compensated absences are recognized as and when they accrue to employees and they are considered to be a financial liability, since the accumulated leaves can be encashed at the end of every year.

2.08 Lease accounting

The Company has adopted Ind AS 116 - Leases w.e.f. 1 April 2019, using the modified retrospective method. The Company has applied the standard to its leases with the cumulative impact recognised on the date of initial application i.e., 1 April 2019.

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset;
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease; and
- (iii) the Company has the right to direct the use of the asset.

Recognition and initial measurement

At lease commencement date, the Company recognises a right-of-use asset ('ROU') and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent measurement

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At lease commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate. Lease payments included in the measurement of

Summary of Material Accounting Policies and Other Explanatory Information

the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in the in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

Presentation

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

2.09 Borrowing Cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

2.10 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Company. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company.

2.11 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

2.12 Property, plant & equipment**Measurement at recognition**

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non-refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price. Cost includes cost of replacing a part of a plant and equipment if the recognition criteria are met. Items such as spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Costs in nature of repairs and maintenance are recognized in the Statement of Profit and Loss as and when incurred.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Capital work-in-progress and capital advances:

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work-in-progress. Advances given towards acquisition of property, plant and equipments outstanding at each balance sheet date are disclosed as other non-financial assets.

Summary of Material Accounting Policies and Other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

Depreciation

Depreciation on each part of an item of property, plant and equipment is provided using the written down value method based on the useful life of the asset as prescribed in Schedule II to the Act. Depreciation is calculated on a pro-rata basis from the date of installation till date the assets are sold or disposed. Leasehold improvements are amortised over the underlying lease term on a straight line basis. Individual assets costing less than Rs.5,000 are depreciated in full in the year of acquisition.

De-recognition

The carrying amount of an item of property, plant and equipment is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the de-recognition of an item of property, plant and equipment is measured as the difference between the net disposal proceeds and the carrying amount of the item and is recognized in the Statement of Profit and Loss when the item is derecognized.

2.13 Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

2.14 Share based payments

The Company has equity-settled share-based remuneration plan for its employees. None of the plans are cash-settled. Where employees are rewarded using share-based payments, the fair value of employees' services is determined indirectly by reference to the fair value of the equity instruments offered. This fair value is appraised at the offer date and excludes the impact of non-market vesting conditions (for example profitability and sales growth targets and performance conditions).

All share-based remuneration is ultimately recognised as an expense in the statement of profit or loss with a corresponding credit to equity. If vesting periods or other vesting conditions apply, the expense is allocated over the vesting period, based on the best available estimate of the number of shares expected to vest.

Upon exercise of shares offered, the proceeds received, net of any directly attributable transaction costs, are allocated to share capital up to the nominal (or par) value of the shares issued with any excess being recorded as securities premium.

2.15 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted-average number of equity shares outstanding during the period. The weighted-average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted-average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Description of nature and purpose of each reserve:**(a) General reserve**

General reserve is created from time to time by way of transfer profits from retained earnings for appropriation purposes. General reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income.

(b) Securities premium

The amount received in excess of face value of the equity shares is recognised in Securities Premium.

(c) Retained earnings

Retained earnings are the profits that the Company has earned till date, less any transfer to general reserves, dividends and other distributions made to the shareholders.

(d) Statutory reserve

The Company is required to create a reserve in accordance with the provisions of Section 45IC of the Reserve Bank of India Act, 1934. Accordingly 20% of the profits after tax for the year is transferred to this reserve at the end of every reporting period.

(e) Impairment reserve

When impairment allowance under Ind AS 109 is lower than the provisioning required under prudential norms on Income Recognition, Asset Classification and Provisioning (IRACP) (including standard asset provisioning), difference is appropriated from net profit/loss after tax to a separate 'Impairment Reserve'. This has been created in accordance with RBI guidelines.

** Withdrawal of amount of earlier year now restored.

(f) Share capital cancellation reserve

Pursuant to the scheme of arrangement sanctioned by the Hon'ble High Court of Calcutta vide order dated 21 August 2013 pertaining to the demerger of the investments division of Maharaja Shree Umaid Mills Limited, the nominal value of Rs.59.52 lakhs pertaining to 595,200 equity shares of Rs.10 each have been cancelled and credited to Share Capital Cancellation Reserve, w.e.f. the appointed date of 1 April 2012.

(g) Other comprehensive income

This represents the cumulative gains and losses arising on the revaluation of financial instruments measured at fair value through other comprehensive income, under an irrevocable option, net of amounts reclassified to retained earnings when such assets are disposed off, if any. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised directly in other comprehensive income.

(a) Defined benefits plans - Gratuity (unfunded)

Gratuity plan is a defined benefit plan that provides for lump sum gratuity payment to employees made at the time of their exit by the way of retirement (on superannuation or otherwise), death or disability. The benefits are defined on the basis of their final salary and period of service and such benefits paid under the plan is not subject to the ceiling limit specified in the Payment of Gratuity Act, 1972. Liability as on the Balance Sheet date is provided based on actuarial valuation done by a certified actuary using projected unit credit method.

Aforesaid defined benefit plans typically expose the Company to actuarial risks such as pay as you go risk, salary risk, investment risk and longevity risk.

Pay as you go risk	For unfunded schemes, financial planning could be difficult as the benefits payable will directly affect the revenue and this could be widely fluctuating from year to year. Moreover there may be an opportunity cost of better investment returns affecting adversely the cost of the scheme.
Salary Escalation Risk	The present value of the defined benefit liability is calculated by reference to the future salaries of plan participants. As such, an increase in salary of the plan participants will increase the plan's liability.
Interest Rate risk	The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).
Demographic Risk	The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.
Regulatory Risk	Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity pay-outs (e.g. Increase in the maximum limit on gratuity of Rs. 20,00,000).
Liquidity Risk	This is the risk that the Company is not able to meet the short-term gratuity pay-outs. This may arise due to non-availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

24. Employee benefits expenses (Contd.)**(a) Defined benefits plans - Gratuity (unfunded) (Contd.)****(v) Sensitivity analysis (Contd.)****Methods and assumptions used in preparing sensitivity analysis and their limitations:**

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Balance Sheet.

(vi) Maturity analysis of the benefit payments:

Weighted average duration of the gratuity plan is 11 years (31 March 2024 - 12 years). Expected benefits payments for each such plans over the years is given in the table below:

35. Fair value measurement (Contd.)

- (b) Fair value hierarchy :** The fair value of financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation sale. Methods and assumptions used to estimate the fair values are consistent in all the years. Fair value of financial instruments referred to in note (a) above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable entity specific inputs.

35. Fair value measurement (Contd.)**(c) Fair value of assets and liabilities measured at cost / amortised cost**

The carrying amount of financial assets and financial liabilities measured at amortised cost are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amount would be significantly different from the values that would be eventually received or settled. Management assessed that fair values of cash and cash equivalents, other bank balances, loans, other financial assets and other financial liabilities approximate their carrying amounts of these instruments, as disclosed below:

Particulars	Carrying value (At Fair Value)	
	As at 31 March, 2025	As at 31 March, 2024
Financial assets		
Cash and cash equivalents and other bank balances	317.57	861.95
Loans	12,481.82	11,239.73
Investments	22,130.46	11,907.81

Borrowings	29,135.00	6,905.00
Other financial liabilities	572.85	49.10
	29,734.08	6,997.13

(d) Valuation process and technique used to determine fair value for investments valued using significant unobservable inputs (level 3)

Specific valuation techniques used to value financial instruments include:

- Investments in unquoted equity, preference and other convertible instruments are valued (a) by discounting the aggregate future cash flows with risk-adjusted discounting rate ; (b) on the net asset value calculated using fair values, as appropriate.
- Investments in venture capital funds are valued by use of net asset value certificates from the investee parties.

37. Financial risk management

The Company is a Non-Banking Financial Company, Non deposit taking, categorised as Middle Layer (NBFC-ND-ML) pursuant to Master Direction - Reserve Bank of India (Non-Banking Financial Company - Scale Based Regulation) Directions, 2023 and is registered with the Reserve Bank of India. Its business activities is exposed to various financial risks associated with financials products such as credit or default risk, market risk, interest rate risk, liquidity risk and inflationary risk. However, the Company has a robust financial risk management system in place to identify, evaluate, manage and mitigate various risks associated with its financial products to ensure that desired financial objectives are met. The Company's senior management is responsible for establishing and monitoring the risk management framework within its overall risk management objectives and strategies, as approved by the Board of Directors. Such risk management strategies and objectives are established to identify and analyse potential risks faced by the Company, set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and assess risk management performance. Any change in Company's risk management objectives and policies needs prior approval of it's Board of Directors.

(a) Credit risk

This risk is common to all investors who invest in bonds and debt instruments and it refers to a situation where a particular bond issuer is unable to make the expected principal payments, interest rate payments, or both. Similarly, a lender bears the risk that the borrower may default in the payment of contractual interest or principal on its debt obligations, or both. The entity continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

Financial instruments

Risk concentration is minimized by investing in highly rated, investment grade bonds and debt instruments, particularly Government and PSU Bonds which has the least risk of default. The Company lends to borrowers with a good credit score and generally most of the lending is secured against assets pledged by the borrower in favour of the Company. These investments and loans are reviewed by the Board of Directors on a regular basis.

(All amounts in ₹ in lakhs, unless otherwise stated)

37. Financial risk management (Contd.)

The Company has created provisions for impairment through the Expected Credit Loss (ECL) policy of the Company. It is ensured that the overall provision amount is not lower than the provision as mandated by the Reserve Bank of India on standard and non-standard assets.

(b) Market risk

Market risk is a form of systematic risk associated with the day-to-day fluctuation in the market prices of shares and securities and such market risk affects all securities and investors in the same manner. These daily price fluctuations follows its own broad trends and cycles and are more news and transaction driven rather than fundamentals and many a times, it may affect the returns from an investment. Market risks majorly comprises of two types - interest rate risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risks include borrowings and investments.

Interest rate risk

Interest rate risk is a type of systematic risk that particularly affects fixed rate debt instruments like bonds and debentures. The value of the fixed-rate debt instruments generally decline due to rise in interest rates and vice versa. The rationale is that a bond is a promise of a future stream of payments; an investor will offer less for a bond that pays-out at a rate lower than the rates offered in the current market. A rising interest rate scenario also affects the Company's interest expenditure on borrowed funds.

The Company monitors the interest rate scenarios on a regular basis and accordingly takes investments decisions as whether to invest in fixed rate debt instruments, shares and securities at a particular point of time. Further, the Company's borrowings are short-term in nature and carry a fixed rate of interest and the company is in a position to pass on the rise in interest rates to its borrowers. However, the borrowings of the Company are not significant to the financial statements

Price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. It arises from financial assets such as investments in equity instruments, bonds, mutual funds etc. The Company is exposed to price risk arising mainly from investments carried at fair value through FVTPL or FVOCI which are valued using quoted prices in active markets (level 1 investments). A sensitivity analysis demonstrating the impact of change in market prices of these instruments from the prices existing as at the reporting date is given below:

(c) Liquidity risk:

Liquidity refers to the readiness of the Company to sell and realise its financial assets. Liquidity risk is one of the most critical risk factors for Companies which is into the business of investments in shares and securities. It is the risk of not being able to realise the true price of a financial asset, or is not being able to sell the financial asset at all because of non-availability of buyers. Unwillingness to lend or restricted lending by Banks and Financial Institutions may also lead to liquidity concerns for the entities.

The Company maintains a well-diversified portfolio of investments in shares and securities which are saleable at any given point of time. A dedicated team of market experts are monitoring the markets on a continuous basis, which advises the management for timely purchase or sale of securities. The Company is currently having a mix of both short-term and long-term investments. The management ensures to manage its cash flows and asset liability patterns to ensure that the financial obligations are satisfied in timely manner.

The following table shows the remaining contractual maturities of financial liabilities at the reporting date. The amounts reported are on gross and undiscounted basis.

(d) Inflationary risk:

Inflationary or purchasing power risk refers to the variation in investor returns caused by inflation. It is the risk that results in increase of the prices of goods and services which results in decrease of purchasing power of money, and likely negatively impact the value of investments. The two important sources of inflation are rising costs of production and excess demand for goods and services in relation to their supply. Inflation and interest rate risks are closely related as interest rates generally go up with inflation.

The Company closely monitors the inflation data and analyses the reasons for wide fluctuations thereof and its effect on various sectors and businesses. The main objective is to avoid inflationary risk and accordingly invest in securities and debt instruments that provides higher returns as compared to the inflation in long-term.

38. Capital management

For the purpose of Company's capital management, capital includes issued equity share capital, other equity reserves and borrowed capital less cash and cash equivalents. The primary objective of capital management is to maintain an efficient capital structure to reduce the cost of capital, support corporate expansion strategies and to maximize shareholder's value.

The entity manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the entity may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The entity monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The entity's policy is to keep an optimum gearing ratio. The entity includes within net debt, interest bearing loans and borrowings less cash and cash equivalents.

(vii) Institutional set-up for Liquidity Risk Management

The Board of Directors of the Company has an overall responsibility and oversight for the management of all the risks, including liquidity risk, to which the Company is exposed to in the course of conducting its business. The Board approves the governance structure, policies, strategy and the risk limits for the management of liquidity risk. The Board of Directors approves the constitution of the Risk Management Committee (RMC) for the effective supervision, evaluation, monitoring and review of various aspects and types of risks, including liquidity risk, faced by the Company. The meetings of RMC are held at quarterly interval. Further, the Board of Directors also approves constitution of Asset Liability Committee (ALCO), which functions as the strategic decision-making body for the asset-liability management of the Company from risk-return perspective and within the risk appetite and guard-rails approved by the Board. The main objective of ALCO is to assist the Board and RMC in effective discharge of the responsibilities of asset liability management, market risk management, liquidity and interest rate risk management and also to ensure adherence to risk tolerance/limits set up by the Board. ALCO provides guidance and directions in terms of interest rate, liquidity, funding sources, and investment of surplus funds. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Company. The Company is in a single business segment (primary segment) of giving loans and making investments. The entire revenues are billable within India and there is only one geographical segment (secondary segment).

48. (a) The Hon'ble National Company Law Tribunal, Kolkata Bench ("NCLT"), vide its order dated 23rd October, 2024 sanctioned the Scheme of Amalgamation wherein Four(4) subsidiaries of the Company namely, Anantay Greenview Private Limited, Sarvadeva Greenpark Private Limited, Sishiray Greenview Private Limited and Uttaray Greenpark Private Limited, an associate company namely, The Kishore Trading Company Limited and one group company namely, Virochanay Greenfield Private Limited ('Transferor Companies'), along with other group companies, whereby, these companies were merged with Maharaja Shree Umaid Mills Limited ('Transferee Company'). A Certified Copy of the Order of NCLT under Section 230 to 232 and other applicable provisions

Notes to Standalone Financial Statements for the Year Ended 31st March 2025

(All amounts in ₹ crores, unless otherwise stated)

of the Companies Act, 2013 sanctioning the above Scheme was issued on 2nd December, 2024, which was filed by the respective Transferor Companies on 10th December, 2024 with the Registrar of Companies, West Bengal ("ROC"). Consequent to the said Scheme becoming effective, the above named subsidiaries, an associate and one group company cease to exist with effect from the appointed date of the scheme, being 1st April, 2023 and the Company was allotted equity shares in the Transferee Company namely, Maharaja Shree Umaid Mills Limited ("MSUML") in lieu of its investment in the above entities.

This resulted in net profit before tax of Rs. 3,504.32 lakhs on de-recognition of investment in subsidiaries and associate in exchange for shares of the Transferee Company on 1st April, 2023 and increase in deferred tax liability of Rs. 801.79 lakhs thereon. Additionally, the de-recognition of other investments in said group company in exchange for shares of the Transferee Company on the same date led to a net profit before tax of Rs. 35.77 lakhs and an increase in deferred tax liability of Rs. 8.18 lakhs. However, as the said group company investment was fair-valued through other comprehensive income on 31st March, 2024, the effective gain on de-recognition on that date amounted to Rs. 0.98 lakhs, with a corresponding effective deferred tax liability of Rs. 0.22 lakhs.

Accordingly, the figures reported in the year ended 31st March, 2024, have been restated to give effect to the above.

- (b) Further, among the other transferor companies of the said scheme, Amalgamated Development Limited, Amritpay Greenfield Private Limited, Basbey Greenview Private Limited, Divyay Greeneries Private Limited, Janardan Wind Energy Private Limited, Mahate Greenview Private Limited, M B Commercial Co. Limited, Parmarth Wind Energy Private Limited, Sarvay Greenhub Private Limited, Sidhidata Solar Urja Limited, Subhprada Greeneries Private Limited, The Swadeshi Commercial Company Limited, Yasheshvi Greenhub Private Limited, with whom the Company had related party transactions during the year and previous year, have also merged with MSUML and cease to exist with effect from the appointed date of the scheme, i.e., 1st April, 2023.
- (c) Further, the following 3 Transferor Companies were forming part of the promoter group of Kiran Vyapar Limited and were holding equity shares of Kiran Vyapar Limited as detailed hereunder:-

Sl.No.	Name of Transferor Companies	Shares	% of Holding
1.	M B Commercial Co. Limited	28,20,000	10.34
2.	Amalgamated Development Limited	16,52,000	6.06
3.	The Kishore Trading Company Limited	12,20,400	4.46
	Total	56,92,400	20.86

Consequent to the above mentioned Scheme becoming effective, the above named 3 Promoter Group Companies have merged with the Transferee Company and therefore, 56,92,400 equity shares representing 20.86% of the Company held by these 3 erstwhile Promoter Group Companies stand transferred to Maharaja Shree Umaid Mills Limited ("MSUML"). Accordingly, MSUML has become a part of the Promoter Group w.r.t. shareholding in the Company in place of the abovementioned 3 erstwhile Promoter Group Companies.

49. During the year ended 31st March, 2025, the company has acquired 100% equity shareholding in Peepul Tree Capital Pte. Ltd. ("PTCPL") a company incorporated in Singapore, consequent to the above acquisition PTCPL became a 100% subsidiary of the company. Further, the company has subscribed to 1,14,50,000 ordinary shares in PTCPL amounting to US Dollar 1,14,50,000 (equivalent to Rs. 9,922.57 lakhs) on 20th January, 2025. Post the above subscription, the PTCPL continues to be 100% subsidiary of the company.
50. On 31st March, 2025, a Scheme of Amalgamation in relation to an associate namely, Placid Limited has been filed with Hon'ble National Company Law Tribunal (NCLT), Kolkata. The said scheme of amalgamation is presently pending before Hon'ble NCLT, Kolkata for its sanction, including necessary approval of the shareholders for the Scheme. On the Scheme becoming effective, the above named associate shall cease to exist and the Company will receive shares in the transferee company, the effect of which shall be provided in the financial statements on the receipt of the NCLT Order, which is awaited.
51. Neither any allotment was made under the Employee Share Purchase Scheme (ESPS) and / or Employee Stock Option Scheme (ESOP) under Kiran Vyapar Limited-Share Incentive Plan 2018, during the year nor any options are outstanding as on the balance sheet date. Therefore, no disclosure is required to be made pursuant to the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations 2021.
52. The standalone financial statements are approved for issue by the Board of Directors in its meeting held on 26th May 2025.

INDEPENDENT AUDITOR'S REPORT

To the Members of KIRAN VYAPAR LIMITED

Report on the Audit of the Consolidated Financial Statements

Unmodified Opinion

We have audited the accompanying Consolidated Financial Statements of **Kiran Vyapar Limited** ("the Holding Company") and its subsidiaries, (the Holding Company and its subsidiaries together referred to as the "Group"), and includes the Group's share of profit in its associates, which comprise the Consolidated Balance Sheet as at 31st March, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity, the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the Consolidated Financial Statements, including a summary of material accounting policy information and other explanatory information (hereinafter referred to as "Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries and associates referred to in the Other Matters section below, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view, in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India of the consolidated state of affairs of the Group as at 31st March, 2025, and their consolidated profit, (including other comprehensive income), consolidated cash flows and consolidated changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing ("SA"s) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its associates in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us together with the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sl. No.	Key Audit Matters	Auditor's Responses to Key Audit Matters
1.	<p>Valuation of unquoted financial assets held at fair value</p> <p>As at 31st March 2025, the Group has unquoted investments amounting to Rs. 97,880.32 lakhs which includes investments in equity instruments, preference instruments and venture capital funds. These investments represent 46.67 % of the total investments of the Group as at 31st March 2025.</p> <p>The aforesaid investments are not traded in the active market. These investments are fair valued using Level 3 inputs. The fair valuation of these investments is determined by a management-appointed independent valuation specialist based on discounted cash flow method for equity and preference instruments. Investments in venture capital funds are valued based on the net asset</p>	<p>Our audit procedures, included, but were not limited to, the following:</p> <p>Obtained a detailed understanding of the management's process and controls for determining the fair valuation of unquoted investment. The understanding was obtained by performance of walkthroughs which included inspection of documents produced by the Group and discussion with those involved in the process of valuation;</p> <p>Evaluated the design and the operational effectiveness of relevant key controls over the valuation process, including the Group's review and approval of the estimates and assumptions used for the valuation including key authorization and data input controls, independent price verification performed by the management expert and</p>

<p>value declared by the respective funds. The process of computation of fair valuation of investments includes use of unobservable inputs, management judgements and estimates which are complex.</p> <p>The key assumptions underpinning management's assessment of fair value of these investments include application of liquidity discounts; calculation of discounting rates and the estimation of projections of revenues, projections of future cash flows and growth rates.</p> <p>The valuation of these investments was considered to be one of the areas which required significant auditor attention and was one of the matters of most significance in the Consolidated Financial Statements due to the materiality of total value of investments to the Consolidated Financial Statements and the complexity involved in the valuation of these investments.</p>	<p>model governance and valuation;</p> <p>Assessed the appropriateness of the valuation methodology used for the unquoted investment in accordance with the Group's policy and tested the mathematical accuracy of the management's model adopted;</p> <p>Obtained the valuation report from management's expert and assessed the expert's competence, objectivity and independence in performing the valuation of these investments;</p> <p>Assessed the appropriateness of the valuation model used by the management and the assumptions used relating to projected cash flows and the discounting factor.</p> <p>Ensured the appropriateness of the carrying value of these investments in the Consolidated Financial Statements and the gain or loss recognised in the Consolidated Financial Statements as a result of such fair valuation;</p> <p>Ensured the appropriateness and adequacy of disclosures in accordance with the applicable accounting standards.</p>

The Holding Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the annual report but does not include the Consolidated Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries and associates audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries and associates, is traced from their financial statements audited by the other auditors.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and cash flows of the Group including its Associates in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and its associates and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Holding Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective and Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate their respective entities or to cease operations or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates are also responsible for overseeing the financial reporting process of the Group and of its associates.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements:

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditor's Report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's Report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of entities or the business activities within the Group and its associates to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the Consolidated Financial Statements of which we are the independent auditors. For the entities or business activities included in the Consolidated Financial Statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, related safeguards

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our Auditor's Report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the annual financial statements of two (2) subsidiaries whose financial statements reflects total assets of Rs. 9,923.89 lakhs as at 31 March 2025, total revenues of Rs. 78.34 Lakhs, total net profit after tax of Rs. 10.52 Lakhs and total comprehensive income of Rs. 10.52 lakhs and net cash outflows of Rs. 3.50 Lakhs for the year ended on that date, as considered in the Consolidated Financial Statement which have been audited by their respective independent auditors. The Consolidated Financial Statement also includes the Group's share of net profit after tax of Rs. 2,426.90 Lakhs and total comprehensive income of Rs. 5,825.28 Lakhs for the year ended 31st March 2025, as considered in the Consolidated Financial Statements, in respect of two (2) associates, whose financial statements have been audited by their respective independent auditors. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and associates, and our report in terms of subsection (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries and associate is based solely on the reports of the other auditors.

ANNEXURE – A TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph-2(f) under ‘Report on Other Legal and Regulatory Requirements’ of our Report of even date to the members of Kiran Vyapar Limited on the Consolidated Financial Statements for the year ended 31st March, 2025)

Report on the Internal Financial Controls with reference to the aforesaid Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to the financial statements of Kiran Vyapar Limited (“the Holding Company”) as of 31st March, 2025 in conjunction with our audit of the Consolidated Financial Statements of the Holding Company for the year ended on that date.

Management’s and Board of Director’s Responsibilities for Internal Financial Controls

The respective Company’s management and Board of Directors of the Holding Company, its subsidiary companies, and its associate companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal control with reference to consolidated financial statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary companies and its associate companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary and the associate companies, which are incorporated in India, in terms of their report referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries and associate companies, which are incorporated in India.

Meaning of Internal Financial Controls with reference to Financial Statements

A company’s internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. **s**

Opinion

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditor referred to in the Other Matter paragraph below, the Holding Company, its subsidiary companies and its associate companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31st March, 2025, based on the criteria for internal financial control with reference to financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matter

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to one subsidiary and 2 associate companies, which are company incorporated in India, is based solely on the corresponding report of the auditor of such company incorporated in India.

Our opinion is not modified in respect of the above matter.

These consolidated financial statements are approved by the Parent Company's Board of Directors on 26 May 2025.

(b) Basis of preparation of consolidated financial statements

These consolidated financial statements comply in all material aspect with Indian Accounting Standards (Ind AS) notified under section 133 of the Companies Act 2013("The Act"), read together with the Companies (Indian Accounting Standards) Rules, 2015 as amended, and other other relevant provisions of the Act; the Master Direction – Non-Banking Financial Company – Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016 ('the NBFC Master Directions') issued by RBI vide circular number RBI/2019-20/170 DOR (NBFC).CC.PD. No 109/22.10.106/2019-20 dated March 13, 2020 ('RBI notification for Implementation of Ind AS') and applicable RBI circulars/notifications.

The Guidance Note on Division III - Schedule III issued by the Institute of Chartered Accountants of India ("ICAI") has been followed insofar as they are not inconsistent with any of these Directions.

These consolidated financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and financial liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies set out below. The accounting policies have been applied consistently over all the periods presented in these consolidated financial statements.(Amounts in the standalone financial statements are presented in Indian Rupees in Lakhs rounded off to two decimal places).

(c) Basis of consolidation**Subsidiaries**

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries. Control is achieved when the Parent Company has:

- Controlling power over the investee
- Is exposed or has rights to variable returns from its involvement with the investee, and
- Has the ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has controlling power over an investee, including:

- The contractual arrangement with the other vote holders of the investee;
- Right arising from other contractual arrangements;
- The Company's voting rights and potential voting rights
- The size of the Company's holding of voting rights relative to the size and dispersion of the holdings of the other voting right holders.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Parent Company gains control until the date the Parent Company ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the Group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that Group member's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Parent company, i.e., year ended on 31 March 2025. When the end of the reporting period of the Parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the Parent to enable the Parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Associates

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its associate is accounted for using the equity method. Under the equity method, the investment in an associate is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is not tested for impairment individually.

The Consolidated Statement of Profit and Loss reflects the Group's share of the results of operations of the associate. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the associate, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

If the Group's share of losses of an associate exceeds its interest in that associate (which includes any long-term interest that, in substance, form part of the Group's net investment in the associate), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate. If the associate subsequently reports profits, the Group resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognized.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its associate. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, and then recognises the loss as Share of profit of an associate in the Consolidated Statement of Profit or Loss.

Upon loss of significant influence over an associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognised in the Statement of Profit or Loss.

Consolidation procedure:

The consolidated financial statements of the Parent Company and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intragroup transactions and the unrealised profits/losses, unless cost/revenue cannot be recovered.

Offset (eliminate) the carrying amount of the Parent's investment in each subsidiary and the Parent's portion of equity of each subsidiary.

Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and property, plant and equipment's, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

(d) Presentation of consolidated financial statements

The Group presents its balance sheet in order of liquidity. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in note 44.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business.
- The event of default.
- The event of insolvency or bankruptcy of the Parent Company and/or its counterparties.

(e) Material accounting judgements, estimates and assumptions

The preparation of these consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Group determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Group monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Group's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

Provisions and other contingent liabilities

The Group operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of the Group's business. When the Group can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Group records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed. Given the subjectivity and uncertainty of determining the probability and amount of losses, the Group takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

(f) Application of new accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules issued from time to time. For the Year ended 31st March 2025, MCA notified IND-AS 117- Insurance Contracts & amendments to IND-AS 116 - Leases, relating to sale and lease back transactions, applicable w.e.f. April, 2024. The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any impact in its financial statements.

On 7th May, 2025 MCA notified the amendments to IND AS-21-Effects of Changes in Foreign Exchange Rates. These amendments aim to provide clearer guidance on assessing currency exchangeability and estimating exchange rates when currencies are not readily exchangeable. The amendments are effective for annual period beginning on or after 1st April, 2025. The Company will be assessing the probable impact of these amendments on its financial statements for the financial year 2025-26.

2. Material accounting policies**2.01 Revenue recognition**

Revenue (other than for those items to which Ind AS 109 Financial Instruments are applicable) is measured at fair value of the consideration received or receivable. Ind AS 115 Revenue from contracts with customers outlines a single comprehensive model of accounting for revenue arising from contracts with customers and supersedes current revenue recognition guidance found within Ind AS.

The Group recognises revenue from contracts with customers based on a five step model as set out in Ind AS 115:

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

Step 1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step 2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step 3: Determine the transaction price: The transaction price is the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step 4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expects to be entitled in exchange for satisfying each performance obligation.

Step 5: Recognise revenue when (or as) the Group satisfies a performance obligation.

Interest income (Effective interest rate method)

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost, debt instrument measured at FVOCI and debt instruments designated at FVTPL. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument or, when appropriate, a shorter period, to the net carrying amount of the financial asset. The EIR (and therefore, the amortised cost of the asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Group recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges). If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk. The adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through interest income in the Consolidated Statement of Profit and Loss.

The Group calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets. When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Group calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial assets cures and is no longer credit-impaired, the Group reverts to calculating interest income on a gross basis. For purchased or originated credit-impaired (POCI) financial assets, the Group calculates interest income by calculating the credit-adjusted EIR and applying that rate to the amortised cost of the asset. The credit-adjusted EIR is the interest rate that, at original recognition, discounts the estimated future cash flows (including credit losses) to the amortised cost of the POCI assets. Interest income on all trading assets and financial assets mandatorily required to be measured at FVTPL is recognised using the contractual interest rate in net gain on fair value changes.

Dividend income

Dividend income (including from FVTOCI investments) is recognised when the Group's right to receive the payment is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of the dividend can be measured reliably.

Trading income

Trading income includes all gains and losses from changes in fair value and the related interest income or expense and dividends, for financial assets and financial liabilities held for trading.

Sale of goods

Revenue from sale of goods is recognized when the Group transfers all significant risks and rewards of ownership to the buyer, while the Group retains neither continuing managerial involvement nor effective control over the goods sold.

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

Rendering of services

Revenue from services is recognized over time by measuring progress towards satisfaction of performance obligation for the services rendered.

2.02 Financial instruments**Point of recognition**

Financial assets and liabilities, with the exception of loans, debt securities, deposits and borrowings are initially recognised on the trade date, i.e., the date that the Group becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans are recognised when funds are transferred to the customers' account. The Group recognises debt securities, deposits and borrowings when funds reach the Group.

Initial recognition

The classification of financial instruments at initial recognition depends on their contractual terms and the business model for managing the instruments, as per the principles of the Ind AS. Financial instruments are initially measured at their fair value, except in the case of financial assets and financial liabilities recorded at FVTPL, transaction costs are added to, or subtracted from, this amount. Trade receivables are measured at the transaction price. When the fair value of financial instruments at initial recognition differs from the transaction price, the Group accounts for the same, as mentioned below:

When the transaction price of the instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Group recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognised in profit or loss when the inputs become observable, or when the instrument is derecognised.

Subsequent measurement of financial liabilities

All financial liabilities of the Group are subsequently measured at amortized cost using the effective interest method. Under the effective interest method, the future cash payments are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial liability over the relevant period of the financial liability to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest expense over the relevant period of the financial liability. The same is included under finance cost in the Consolidated Statement of Profit and Loss.

Subsequent measurement of financial assets

For subsequent measurement, the Group classifies a financial asset in accordance with the below criteria:

- i. The Group's business model for managing the financial asset; and
- ii. The contractual cash flow characteristics of the financial asset.

Based on the above criteria, the Group classifies its financial assets into the following categories:

- (a) Financial assets measured at amortized cost
- (b) Financial assets measured at fair value through other comprehensive income (FVTOCI)
- (c) Financial assets measured at fair value through profit or loss (FVTPL)

(a) Financial assets measured at amortized cost:

A Financial asset is measured at the amortized cost if both the following conditions are met:

- (i) The Group's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows; and

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

- (ii) The contractual terms of the Financial asset give rise on specified dates to cash Flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to cash and cash equivalents, other bank balances, trade receivables, loans and other financial assets of the Group. Such financial assets are subsequently measured at amortized cost using the effective interest method. Under the effective interest method, the future cash receipts are exactly discounted to the initial recognition value using the effective interest rate. The cumulative amortization using the effective interest method of the difference between the initial recognition amount and the maturity amount is added to the initial recognition value (net of principal repayments, if any) of the financial asset over the relevant period of the financial asset to arrive at the amortized cost at each reporting date. The corresponding effect of the amortization under effective interest method is recognized as interest income over the relevant period of the financial asset. The same is included under other income in the Consolidated Statement of Profit and Loss. The amortized cost of a financial asset is also adjusted for loss allowance, if any.

(b) Financial assets measured at FVTOCI:

A financial asset is measured at FVTOCI if both of the following conditions are met:

- (i) The Group's business model objective for managing the financial asset is achieved both by collecting contractual cash flows and selling the financial assets; and
- (ii) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

This category applies to certain investments in debt and equity instruments. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Consolidated Statement of Profit and Loss under 'Other Comprehensive Income (OCI)'. However, the Group recognizes interest income and impairment losses and its reversals in the Consolidated Statement of Profit and Loss. On de-recognition of such financial assets, cumulative gain or loss previously recognized in OCI is reclassified from equity to the Consolidated Statement of Profit and Loss, except for instruments which the Group has irrevocably elected to be classified as equity through OCI at initial recognition, when such instruments meet the definition of definition of Equity under Ind AS 32 Financial Instruments: Presentation and they are not held for trading. The Group has made such election on an instrument by instrument basis.

Gains and losses on these equity instruments are never recycled to profit or loss. Dividends are recognised in the statement of profit or loss as dividend income when the right of the payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the instrument, in which case, such gains are recorded in OCI. Equity instruments at FVOCI are not subject to an impairment assessment.

(c) Financial assets measured at FVTPL:

A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Group excluding investments in subsidiary and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Consolidated Statement of Profit and Loss.

Financial assets held for sale:

The Group classifies financial assets as held for trading when they have been purchased or issued primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there is evidence of a recent pattern of short-term profit taking. Held-for-trading assets and liabilities are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes.

Interest and dividend income or expense is recorded in net gain on fair value changes according to the terms of the contract, or when the right to payment has been established. Included in this classification are debt securities, equities, and customer loans that have been acquired principally for the purpose of selling or repurchasing in the near term.

De-recognition:**(a) Financial asset:**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e. removed from the Group's balance sheet) when any of the following occurs:

- i. The Group transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset. A regular way purchase or sale of financial assets has been derecognised, as applicable, using trade date accounting.
- ii. The Group retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset);
- iii. The Group neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Group has neither transferred nor retained substantially all of the risks and rewards of the Financial asset, but retains control of the financial asset, the Group continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Group also recognizes an associated liability. The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

On de-recognition of a financial asset, (except as mentioned in ii above for financial assets measured at FVTOCI), the difference between the carrying amount and the consideration received is recognized in the Consolidated Statement of Profit and Loss.

(b) Financial liability:

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognised in profit or loss.

Impairment of financial assets:

In accordance with Ind AS 109, the Company applies expected credit loss ('ECL') model for measurement and recognition of impairment loss for financial assets.

ECL is the weighted-average of difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate, with the respective risks of default occurring as the weights. When estimating the cash flows, the Group is required to consider:

- All contractual terms of the financial assets (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

In respect of trade receivables, the Group applies the simplified approach of Ind AS 109, which requires measurement of loss allowance at an amount equal to lifetime expected credit losses. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

Other financial assets:

In respect of its other financial assets, the Company assesses if the credit risk on those financial assets has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the Company measures the loss allowance at an amount equal to 12-month expected credit losses, else at an amount equal to the lifetime expected credit losses.

When making this assessment, the Group uses the change in the risk of a default occurring over the expected life of the financial asset. To make that assessment, the Group compares the risk of a default occurring on the financial asset as at the balance sheet date with the risk of a default occurring on the financial asset as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition. The Group assumes that the credit risk on a financial asset has not increased significantly since initial recognition if the financial asset is determined to have low credit risk at the balance sheet date.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.03 Fair value measurement

The Group measures its financial instruments at fair value in accordance with the accounting policies mentioned above. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

- Level 1 (unadjusted) - Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Group has access to at the measurement date. The Group considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.
- Level 2 - Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life. Such inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical instruments in inactive markets and observable inputs other than quoted prices such as interest rates and yield curves, implied volatilities, and credit spreads. In addition, adjustments may be required for the condition or location of the asset or the extent to which it relates to items that are comparable to the valued instrument. However, if such adjustments are based on unobservable inputs which are significant to the entire measurement, the Group will classify the instruments as Level 3.
- Level 3 - Those that include one or more unobservable input that is significant to the measurement as whole.

For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same.

2.04 Income Taxes

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

Current tax

Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Consolidated Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit under Income tax Act, 1961.

Deferred tax liabilities are generally recognized for all taxable temporary differences. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax liabilities are not recognized. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognized.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

The Group has not recognised a deferred tax liability for all taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint arrangements, except to the extent that both of the following conditions are satisfied:

- the parent, investor, joint venture or joint operator is able to control the timing of the reversal of the temporary difference; and
- it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Presentation of current and deferred tax:

Current and deferred tax are recognized as income or an expense in the Consolidated Statement of Profit and Loss, except when they relate to items that are recognized in Other Comprehensive Income, in which case, the current and deferred tax income/expense are recognized in Other Comprehensive Income. The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. In case of deferred tax assets and deferred tax liabilities, the same are offset if the Group has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Group.

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

2.05 Provisions and contingencies

The Group recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

2.06 Cash and cash equivalents

Cash and cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid investments.

2.07 Employee Benefits**Short-term employee benefits**

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and they are recognized in the period in which the employee renders the related service. The Group recognizes the undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered as a liability (accrued expense) after deducting any amount already paid.

Post-employment benefits**(i) Defined contribution plans**

Defined contribution plans are employee state insurance scheme and Government administered pension fund scheme for all applicable employees.

Recognition and measurement of defined contribution plans:

The Group recognizes contribution payable to a defined contribution plan as an expense in the Consolidated Statement of Profit and Loss when the employees render services to the Group during the reporting period. If the contributions payable for services received from employees before the reporting date exceeds the contributions already paid, the deficit payable is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the reporting date, the excess is recognized as an asset to the extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund.

(ii) Defined benefits plans**Gratuity scheme:**

Gratuity is a post employment benefit and is a defined benefit plan. The cost of providing defined benefits is determined using the Projected Unit Credit method with actuarial valuations being carried out at each reporting date. The defined benefit obligations recognized in the Balance Sheet represent the present value of the defined benefit obligations as reduced by the fair value of plan assets, if any. Any defined benefit asset (negative defined benefit obligations resulting from this calculation) is recognized representing the present value of available refunds and reductions in future contributions to the plan.

Recognition and measurement of defined benefit plans

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefit liability / (asset) are recognized in the Consolidated Statement of Profit and Loss. Remeasurements of the net defined benefit liability / (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest on the net defined benefit liability/asset), are recognized in Other Comprehensive Income. Such remeasurements are not reclassified to the Consolidated Statement of Profit and Loss in the subsequent periods.

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

The Group does not presents the above liability/(asset) as current and non-current in the Balance Sheet as per the principles of Division III financial statements as per the MCA notification dated 11 October 2018.

(iii) Other long-term employee benefits:

Entitlements to compensated absences are recognized as and when they accrue to employees and they are considered to be a financial liability, since the accumulated leaves can be encashed at the end of every year.

2.08 Lease accounting

The Group's lease asset classes primarily consist of leases for land and buildings. The Group assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- (i) the contract involves the use of an identified asset;
- (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease; and
- (iii) the Group has the right to direct the use of the asset.

Recognition and initial measurement

At lease commencement date, the Group recognises a right-of-use asset ('ROU') and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Group, an estimate of any costs to dismantle and remove the asset at the end of the lease (if any), and any lease payments made in advance of the lease commencement date (net of any incentives received).

Subsequent measurement

The Group depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Parent Company also assesses the right-of-use asset for impairment when such indicators exist.

At lease commencement date, the Group measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Group's incremental borrowing rate. Lease payments included in the measurement of the lease liability are made up of fixed payments (including in substance fixed payments) and variable payments based on an index or rate. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in the in-substance fixed payments. When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset.

Presentation

The Group has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in the Consolidated Statement of Profit and Loss on a straight-line basis over the lease term.

2.09 Borrowing cost

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Borrowing costs, if any, directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized, if any. All other borrowing costs are expensed in the period in which they occur.

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

2.10 Inventories

Inventories are stated at the lower of cost and net realisable value. The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business less any applicable selling expenses. Provision for obsolescence and slow moving inventory is made based on management's best estimates of net realisable value of such inventories.

2.11 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM) of the Group. The CODM is responsible for allocating resources and assessing performance of the operating segments of the Group.

2.12 Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

2.13 Property, plant and equipment and investment property**Measurement at recognition**

An item of property, plant and equipment that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, items of property, plant and equipment are carried at its cost less accumulated depreciation and accumulated impairment losses.

The cost of an item of property, plant and equipment comprises of its purchase price including import duties and other non-refundable purchase taxes or levies, directly attributable cost of bringing the asset to its working condition for its intended use and the initial estimate of decommissioning, restoration and similar liabilities, if any. Any trade discounts and rebates are deducted in arriving at the purchase price. Cost includes cost of replacing a part of a plant and equipment if the recognition criteria are met. Items such as spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Costs in nature of repairs and maintenance are recognized in the Consolidated Statement of Profit and Loss as and when incurred.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Investment Property consists of freehold land held by the group to earn rentals or capital appreciation. The Group follows cost model for measurement of investment property.

Capital work-in-progress and capital advances:

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work-in-progress. Advances given towards acquisition of fixed assets outstanding at each balance sheet date are disclosed as other non-financial assets.

Depreciation

Depreciation on each part of an item of property, plant and equipment is provided using the written down value method (except in case of two subsidiaries where it is provided on straight line method) based on the useful life of the asset as prescribed in Schedule II to the Act. Depreciation is calculated on a pro-rata basis from the date of installation till date the assets are sold or disposed. Leasehold improvements are amortised over the underlying lease term on a straight line basis. Individual assets costing less than ₹ 5,000 are depreciated in full in the year of acquisition.

De-recognition

The carrying amount of an item of property, plant and equipment or investment property is derecognized on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the de-recognition of an item of property, plant and equipment is measured as the difference between

Summary of Material Accounting Policies and other Explanatory Information

(All amounts in ₹ lakhs, unless otherwise stated)

the net disposal proceeds and the carrying amount of the item and is recognized in the Consolidated Statement of Profit and Loss when the item is derecognized.

2.14 Impairment of non-financial assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Group estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

2.15 Trade receivables

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated for changes in the forward-looking estimates.

2.16 Share based payments

The Group has equity-settled share-based remuneration plan for its employees. None of the plans are cash-settled. Where employees are rewarded using share-based payments, the fair value of employees' services is determined indirectly by reference to the fair value of the equity instruments offered. This fair value is appraised at the offer date and excludes the impact of non-market vesting conditions (for example profitability and sales growth targets and performance conditions).

All share-based remuneration is ultimately recognised as an expense in the Statement of Profit or Loss with a corresponding credit to equity. If vesting periods or other vesting conditions apply, the expense is allocated over the vesting period, based on the best available estimate of the number of shares expected to vest.

Upon exercise of shares offered, the proceeds received, net of any directly attributable transaction costs, are allocated to share capital up to the nominal (or par) value of the shares issued with any excess being recorded as securities premium.

2.17 Earnings per equity share

Basic earnings per equity share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted-average number of equity shares outstanding during the period. The weighted-average number of equity shares outstanding during the period is adjusted for events including a bonus issue.

Notes to Consolidated Financial Statements for the Year Ended 31st March 2025

(All amounts in ₹ lakhs, unless otherwise stated)

For the purpose of calculating diluted earnings per equity share, the net profit or loss for the period attributable to equity shareholders and the weighted-average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

Notes to Consolidated Financial Statements for the Year Ended 31st March 2025

(All amounts in ₹ lakhs, unless otherwise stated)

19. Other equity (Contd.)**Description of nature and purpose of each reserve:****a. General reserve**

General reserve is created from time to time by way of transfer profits from retained earnings for appropriation purposes. General reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income.

b. Securities premium

The amount received in excess of face value of the equity shares is recognised in Securities Premium and utilised in accordance with the provisions of the act.

c. Statutory reserve

The Company is required to create a reserve in accordance with the provisions of Section 451C of the Reserve Bank of India Act, 1934. Accordingly 20% of the profits after tax for the year is transferred to this reserve at the end of every reporting period.

d. Share capital cancellation reserve

Pursuant to the scheme of arrangement sanctioned by the Hon'ble High Court of Calcutta vide order dated 21 August 2013 pertaining to the demerger of the investments division of Maharaja Shree Umaid Mills Limited, the nominal value of Rs.59.52 lakhs pertaining to 595,200 equity shares of Rs.10 each have been cancelled and credited to Share Capital Cancellation Reserve, w.e.f. the appointed date of 1 April 2012.

e. Retained earnings

Retained earnings are the profits that the group has earned till date, less any transfer to general reserves, dividends and other distributions made to the shareholders.

f. Foreign Currency Translation Reserves

Exchange difference arising on the translation of foreign operations are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed off.

g. Capital reserve

Pertains to the difference between the cost of investment in the associates and the share of net assets at the time of acquisition of shares in the associates.

h. Impairment reserve

When impairment allowance under Ind AS 109 is lower than the provisioning required under prudential norms on Income Recognition, Asset Classification and Provisioning (IRACP) (including standard asset provisioning), difference is appropriated from net profit/loss after tax to a separate 'Impairment Reserve' in accordance with RBI guidelines.** Withdrawal of amount of earlier year now restored.

i. Other comprehensive income

This represents the cumulative gains and losses arising on the revaluation of equity instruments measured at fair value through other comprehensive income, under an irrevocable option, net of amounts reclassified to retained earnings when such assets are disposed off, if any.

(a) Defined benefits plans - Gratuity (unfunded)

Gratuity plan is a defined benefit plan that provides for lump sum gratuity payment to employees made at the time of their exit by the way of retirement (on superannuation or otherwise), death or disability. The benefits are defined on the basis of their final salary and period of service and such benefits paid under the plan is not subject to the ceiling limit specified in the Payment of Gratuity Act, 1972. Liability as on the Balance Sheet date is provided based on actuarial valuation done by a certified actuary using projected unit credit method.

Aforesaid defined benefit plans typically expose the Company to actuarial risks such as pay as you go risk, salary risk, investment risk and longevity risk.

Pay as you go risk	For unfunded schemes, financial planning could be difficult as the benefits payable will directly affect the revenue and this could be widely fluctuating from year to year. Moreover there may be an opportunity cost of better investment returns affecting adversely the cost of the scheme.
Salary Escalation Risk	The present value of the defined benefit liability is calculated by reference to the future salaries of plan participants. As such, an increase in salary of the plan participants will increase the plan's liability.
Interest Rate risk	The plan exposes the Company to the risk of fall in interest rates. A fall in interest rates will result in an increase in the ultimate cost of providing the above benefit and will thus result in an increase in the value of the liability (as shown in financial statements).

(All amounts in ₹ lakhs, unless otherwise stated)

29. Employee benefits expenses (Contd.)**(a) Defined benefits plans - Gratuity (unfunded) (Contd.)**

Demographic Risk	The Company has used certain mortality and attrition assumptions in valuation of the liability. The Company is exposed to the risk of actual experience turning out to be worse compared to the assumption.
Regulatory Risk	Gratuity benefit is paid in accordance with the requirements of the Payment of Gratuity Act, 1972 (as amended from time to time). There is a risk of change in regulations requiring higher gratuity pay-outs (e.g. Increase in the maximum limit on gratuity of Rs. 20,00,000).
Liquidity Risk	This is the risk that the Company is not able to meet the short-term gratuity pay-outs. This may arise due to non-availability of enough cash / cash equivalent to meet the liabilities or holding of illiquid assets not being sold in time.

The following tables summarise the components of defined benefit expense recognised in the statement of profit or loss/OCI and amounts recognised in the Balance Sheet for the respective plans:

(vi) Sensitivity analysis		
A quantitative sensitivity analysis for significant assumption is as shown below:		
DBO with discount rate +1%	85.15	80.69
DBO with discount rate -1%	104.58	89.83
DBO with +1% salary escalation	104.55	89.82

DBO with +10% mortality rate	93.98	84.73
DBO with -10% mortality rate	94.30	84.82
Methods and assumptions used in preparing sensitivity analysis and their limitations:		
The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the Balance Sheet.

(b) Fair value hierarchy

The fair value of financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation sale. Methods and assumptions used to estimate the fair values are consistent in all the years. Fair value of financial instruments referred to in note (a) above has been classified into three categories depending on the inputs used in the valuation technique. The hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and lowest priority to unobservable entity specific inputs.

(c) Fair value of assets and liabilities measured at cost/amortised cost		
The carrying amount of financial assets and financial liabilities measured at amortised cost are a reasonable approximation of their fair values since the Company does not anticipate that the carrying amount would be significantly different from the values that would be eventually received or settled. Management assessed that fair values of cash and cash equivalents, other bank balances, loans, other financial assets and other financial liabilities approximate their carrying amounts of these instruments, as disclosed below:		
	Carrying value (At Fair Value)	
Financial assets		
Cash and cash equivalents and other bank balances	13,597.08	3,707.35
Loans	32,987.34	26,593.63

	29,859.23	9,403.15

(d) Valuation process and technique used to determine fair value for investments valued using significant unobservable inputs (level 3)

Specific valuation techniques used to value financial instruments include:

- Investments in unquoted equity, preference and other convertible instruments are valued (a) by discounting the aggregate future cash flows with risk-adjusted discounting rate ; (b) on the net asset value calculated using fair values, as appropriate.
- Investments in venture capital funds are valued by use of net asset value certificates from the investee parties.

40. Financial risk management

The Group is exposed to various financial risks associated with financial products such as credit or default risk, market risk, interest rate risk, liquidity risk and inflationary risk. However, it has a robust financial risk management system in place to identify, evaluate, manage and mitigate various risks associated with its financial products to ensure that desired financial objectives are met. The Group's senior management is responsible for establishing and monitoring the risk management framework within its overall risk management objectives and strategies, as approved by the Board of Directors. Such risk management strategies and objectives are established to identify and analyse potential risks faced by the Group, set and monitor appropriate risk limits and controls, periodically review the changes in market conditions and assess risk management performance. Any change in Group's risk management objectives and policies needs prior approval of its Board of Directors.

(a) Credit risk

This risk is common to all investors who invest in bonds and debt instruments and it refers to a situation where a particular bond issuer is unable to make the expected principal payments, interest rate payments, or both. Similarly, a lender bears the risk that the borrower may default in the payment of contractual interest or principal on its debt obligations, or both. The entity continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

Financial instruments

Risk concentration is minimized by investing in highly rated, investment grade bonds and debt instruments, particularly Government and PSU Bonds which has the least risk of default. The Group lends to borrowers with a good credit score and generally most of the lending is secured against assets pledged by the borrower in favour of the Group. These investments and loans are reviewed by the Board of Directors on a regular basis.

The group has created provisions for impairment through its Expected Credit Loss (ECL) policy of the Company. It is ensured that the overall provision amount is not lower than the provision as mandated by the Reserve Bank of India on standard and non-standard assets, where applicable.

(b) Market risk

Market risk is a form of systematic risk associated with the day-to-day fluctuation in the market prices of shares and securities and such market risk affects all securities and investors in the same manner. These daily price fluctuations follows its own broad trends and cycles and are more news and transaction driven rather than fundamentals and many a times, it may affect the returns from an investment. Market risks majorly comprises of two types - interest rate risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risks include borrowings and investments.

(c) Interest rate risk

Interest rate risk is a type of systematic risk that particularly affects fixed rate debt instruments like bonds and debentures. The value of the fixed-rate debt instruments generally decline due to rise in interest rates and vice versa. The rationale is that a bond is a promise of a future stream of payments; an investor will offer less for a bond that pays-out at a rate lower than the rates offered in the current market. A rising interest rate scenario also affects the Group's interest expenditure on borrowed funds.

The Group monitors the interest rate scenarios on a regular basis and accordingly takes investments decisions as whether to invest in fixed rate debt instruments, shares and securities at a particular point of time. Further, the Group's borrowings are short-term in nature and carry a fixed rate of interest and the Group is in a position to pass on the rise in interest rates to its borrowers. However, the borrowings of the Group are not significant to the financial statements

40. Financial risk management (Contd.)**(e) Liquidity risk**

Liquidity refers to the readiness of the Group to sell and realise its financial assets. Liquidity risk is one of the most critical risk factors for companies which is into the business of investments in shares and securities. It is the risk of not being able to realise the true price of a financial asset, or is not being able to sell the financial asset at all because of non-availability of buyers. Unwillingness to lend or restricted lending by Banks and Financial Institutions may also lead to liquidity concerns for the entities.

The Group maintains a well-diversified portfolio of investments in shares and securities which are saleable at any given point of time. A dedicated team of market experts are monitoring the markets on a continuous basis, which advises the management for timely purchase or sale of securities. The Group is currently having a mix of both short-term and long-term investments. The management ensures to manage its cash flows and asset liability patterns to ensure that the financial obligations are satisfied in timely manner.

The following table shows the remaining contractual maturities of financial liabilities at the reporting date. The amounts reported are on gross and undiscounted basis.

(f) Inflationary risk

Inflationary or purchasing power risk refers to the variation in investor returns caused by inflation. It is the risk that results in increase of the prices of goods and services which results in decrease of purchasing power of money, and likely negatively impact the value of investments. The two important sources of inflation are rising costs of production and excess demand for goods and services in relation to their supply. Inflation and interest rate risks are closely related as interest rates generally go up with inflation.

The Group closely monitors the inflation data and analyses the reasons for wide fluctuations thereof and its effect on various sectors and businesses. The main objective is to avoid inflationary risk and accordingly invest in securities and debt instruments that provides higher returns as compared to the inflation in long-term.

41. Capital management

For the purpose of Group's capital management, capital includes issued equity share capital, other equity reserves and borrowed capital less cash and cash equivalents. The primary objective of capital management is to maintain an efficient capital structure to reduce the cost of capital, support corporate expansion strategies and to maximize shareholder's value.

The entity manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the entity may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The entity monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The entity's policy is to keep an optimum gearing ratio. The entity includes within net debt, interest bearing loans and borrowings less cash and cash equivalents.
